DOLFOS PETS is a Polish company, founded by veterinarians, developing a comprehensive range of formulas for companion animals. We have been present on the market for many years, offering top quality products, elaborated in cooperation with specialists in animal nutrition, veterinarians and technologists.

Pets are members of our family and their well-being is our priority.

The products we offer are manufactured from scratch in our company located in the centre of Poland. Raw materials, which undergo detailed verification in our laboratory, are obtained from renowned suppliers. For the production of our formulas we use safe ingredients with effectiveness confirmed by scientific research, which guarantees their maximum absorption.

Our production and distribution processes are improving systematically. We pay particular attention to the needs and signals from our customers, treating them as one of the policy elements that help us to develop, improve and modernise the company and its products.

In this catalogue, you will find a wide range of formulas that pet owners around the world associate with addressing the nutritional and health problems of their four-legged friends.

We want your friend to be healthy and happy so that you can enjoy their company for as long as possible.

Dolmilk® Pets

MILK REPLACER FOR PUPPIES AND KITTENS

- Milk-derived protein only
- Perfectly absorbable fat in the form of microparticles
- Colostrum and prebiotics – support immunity, maintain a healthy balance of intestinal flora
- Essential vitamins, minerals and amino acids for proper development
- Low lactose content
- No starch
- Proper functioning of the digestive system
- Covers the nutritional requirements of puppies and kittens of all breeds
- Strengthening the vitality of young animals

Indications

- Too numerous litter
- Rejection of the litter or death of the mother
- Shortage of the mother's milk
- Complementary feeding and covering of nutritional shortages in puppies and kittens

How to apply

Dolmilk® Pets should be dissolved in warm boiled water in the ratio 1:2 (1 measure of the formula per 2 measures of water).
Ready formula should be administered with a bottle and a nipple.

Packaging

300 g

Composition per 1 kg	
Crude protein	35%
Crude fats	21%
Taurine	1.3 g

Dolvit® **Junior**

FOR PUPPIES AND YOUNG DOGS

- Highly bioavailable vitamins and minerals
- Proper development of the organism
- Improvement of vital processes
- Strengthening of general shape
- Positive effects on the coat
- Harmonious development of the skeletal system

Indications

- Supplementation of mineral and vitamin deficiencies in puppies and young dogs
- Prevention of developmental abnormalities
- Home-feeding or poorly balanced meals
- Strengthening puppies during growth starting from the 3rd week of life

How to apply

Powder: 1 measure (5 g) per 10-20 kg body weight / day
Tablets: 1 tablet per 10 kg body weight / day
Mini tablets: 1 tablet per 3 kg body weight / day

Packaging

Dicalcium phosphate, brewer's yeast, calcium carbonate from oyster shells, calcium citrate, magnesium oxide, magnesium lactate

Dolvit® **Junior Plus**

FOR PUPPIES AND YOUNG DOGS

- Marine algae and oyster shells – highly absorbable, natural sources of minerals, mainly calcium and magnesium – for correct development of the organism
- Vitamins, amino acids and minerals with high bioavailability
- Natural immune factors – beta-1,3/1,6-glucans, mannan-oligosaccharides – high health benefits
- Tocopherols – powerful antioxidants – protection against oxidative stress

Indications

- Supplementation of mineral and vitamin deficiencies in puppies and young dogs
- Prevention of developmental abnormalities
- Poor shape
- Home-feeding or poorly balanced meals
- Strengthening puppies during growth starting from the 3rd week of life

Calcium carbonate from oyster shells, brewer's yeast, magnesium oxide, red marine algae (lithothamne), magnesium lactate, calcium citrate

GeriaDol®

FOR ELDERLY, GERIATRIC DOGS

- Set of vitamins, amino acids and minerals – supports functioning of all organs
- Set of active substances derived from plant extracts e.g. quercetin, curcumin, polyphenols – alleviation of troublesome symptoms associated with advanced age
- Glucosamine – joint strengthening
- Natural immunity booster, e.g. beta-1,3/1,6-glucans, mannan-oligosaccharides
- HMB, CLA, L-arginine, ginseng extract – better shape, more energy, strong muscles
- Omega-3 and omega-6 acids, lecithin – support the nervous system
- Improved quality of life

Indications

- Elderly, geriatric dogs
- Weakness, apathy, reluctance to move, dementia
- Degenerative changes
- Support of the body in disorders resulting from advanced age
- Supplementation of the daily diet

Dolvit®
Calcium phosphate A D_3 E

FOR DOGS OF ALL AGES

- Calcium and phosphorus in highly bioavailable forms – proper development of bones and teeth
- Vitamin A – strengthens immunity, correct growth and development of young dogs
- Vitamin D_3 – regulation of phosphorus and calcium metabolism, anti-rickets effect
- Strengthening of the skeletal system
- Healthy skin and shiny coat

Indications
- Mineral and vitamin supplementation
- Periods of increased demand: pregnancy, nursing, intensive growth
- Convalescence after orthopaedic injuries

How to apply
Powder: 1 measure (5 g) per 10 kg body weight / day
Tablets: 1 tablet per 5 kg body weight / day
Mini tablets: 1 tablet per 2 kg body weight / day

If applied to pregnant and nursing females, the dose can be doubled.

Vitamin B_2	400 µg
Vitamin B_6	200 µg
Vitamin B_{12}	1.5 µg
Biotin	15 µg
Niacin	4 000 µg
Pantothenic acid	1 000 µg
Folic acid	40 µg
Iron	2 000 µg
Copper	825 µg
Zinc	6 600 µg
Iodine	90 µg
Selenium	16.5 µg
Calcium	21 mg
Magnesium	20 mg
Sodium	3 mg
L- Arginine	8 mg
Taurine	103 mg
Natural tocopherols extract	1 mg
Glucosamine	70 mg
Beta-1,3/1,6-glucan	15 mg

Mannan-oligosaccharides (MOS), ginsenosides, capsaicin, curcumin, quercetin, omega-3 and omega-6 acids, choline, phospholipids, flavonoids, polyphenols

HMB (calcium salt of 3-hydroxy-3-methylbutyrate), CLA (conjugated linoleic acid), brewer's yeast, calcium carbonate from oyster shells, magnesium oxide, red marine algae (lithothamne), fish oil, ginseng extract, paprika extract, Curcuma longa extract, nettle extract, dandelion extract, purple coneflower extract, lecithin, magnesium lactate, calcium citrate

Dolvit® **Lysine Cat**

IMMUNITY BOOST

- Strengthening the immune system of cats and kittens
- Improving general condition and well-being
- Supporting the proper functioning of the upper respiratory, nervous and circulatory systems
- Support for the eyes
- Stimulating production of antibodies, enzymes and hormones
- Supporting the multiplication of beneficial intestinal microflora
- Neutralisation of free radicals

Indications

- Reduced immunity of cats and kittens
- Body weakness
- Contact with other cats
- Stressful situations
- Excessive secretion from the eyes and nose

How to apply

kittens – 0.5 measure (0.35 g) twice a day
adult cats – 1 measure (0.7 g) twice a day

The formula should be administered with a meal.
It is recommended to seek veterinary advice before use.

Packaging

70 g

Composition per 1 kg

L-Lysine monohydrochloride	715 g

Beta glucans, mannan-oligosaccharides (MOS), thymol, carvacrol, flavonoids

Brewer's yeast, thyme extract (Thymus vulgaris), cistus (Cistus L.)

Dolvit® **Taurine**

Composition per 0,8 g

Taurine	250 mg

Maltodextrin, fructooligosaccharides (FOS)

PROPER FUNCTIONING OF THE BODY

- Proper development and functioning of the nervous system
- Support of heart function
- Proper eye function
- Proper functioning of the reproductive system
- Proper course of pregnancy and lactation
- Proper growth and development of kittens
- Immunity support
- Supports liver, pancreas, kidney functioning
- Proper development of the brain and retina
- Improving fat metabolism
- Body regeneration
- Regulation of body temperature
- Antioxidant effect

Indications

- Supplementation of diets with insufficient taurine levels
- Supplementation of low-protein, homemade, BARF diets
- Support of the body with cardiovascular problems
- Support for animals at risk of developing dilated cardiomyopathy and retinopathy
- Reproductive period

How to apply

cats – 1-2 measures / day
dogs – 1 measure / 10 kg of body weight / day
1 measure contains 0.8 g of the formula.

The formula should be administered with a meal.
Dissolve the preparation in a small amount of water before serving.

Packaging

80 g

Dolvit® **Optic**

VISON SUPPORT

- Protection of eye cells against oxidative stress and UV radiation
- Maintain proper condition of the retina, optic nerve, and lens transparency
- Support for natural regenerative processes
- Strengthening protective mechanisms
- Improving tear stability
- Support eye comfort

Indications

- Age-related deterioration of visual acuity
- Tendency to lens opacity
- Support after eye surgery

How to apply

Tablets: 1 tablet per 10 kg body weight / day
Mini tablets: 1 tablet per 3 kg body weight / day

Packaging

90 tablets
60 mini tablets

Composition per tablet

β-carotene	400 µg
Vitamin A	1 000 IU
Vitamin D_3	200 IU
Vitamin C	50 mg
Vitamin E	20 mg
Vitamin B_1	16 µg
Vitamin B_2	50.5 µg
Vitamin B_6	120.5 µg
Vitamin B_{12}	3 µg
Niacin	150 µg
Pantothenic acid	250 µg
Biotin	20 µg
Folic acid	10 µg
Taurine	5 mg
Calcium	130 mg
Magnesium	10 mg
Zinc	4 000 µg
Copper	500 µg
Selenium	50 µg

Lutein, zeaxanthin, omega-3 and omega-6 acids, glycosaminoglycans (GAGs), curcumin, carotenoids, anthocyanins, flavonoids, polyphenols, tannins

Turmeric extract (Curcuma longa), green tea extract (Camellia sinensis), calcium citrate, magnesium citrate, calcium carbonate, dried marigold (Calendula officinalis), dried chokeberry (Aronia melanocarpa), green-lipped mussel, spirulina

Dolvit® Immuno Herbs

IMMUNITY SUPPORT

- Strengthening immunity
- Strengthening of the immune system
- Upper respiratory tract proper functioning
- Antioxidant effect

Indications

- Reduced immunity
- Body weakness
- Infection season
- Supportive in the upper respiratory tract infections
- Excessive mucus formation
- Recurring problems with proper functioning of the upper respiratory system

How to apply

Tablets

dogs and cats:
under 10 kg body weight – 1 tablet / day
10-20 kg body weight – 2 tablets / day
20-30 kg body weight – 3 tablets / day
over 30 kg body weight – 4 tablets / day

Mini tablets

dogs and cats:
under 3 kg body weight – 1 tablet / day
3-6 kg body weight – 2 tablets / day
7-10 kg body weight – 3 tablets / day

Packaging

90 tablets
60 mini tablets

Composition per tablet

Vitamin D_3	300 IU
Vitamin C	60 mg
Vitamin E	14 mg
Zinc	3 500 µg
Iodine	200 µg
Selenium	60 µg

Curcumin, quercetin, thymol, carvacrol, fructooligosaccharides (FOS), flavonoids, polyphenols, tannins, essential fatty acids (EFAs)

Turmeric extract (Curcuma longa), rosehip (Rosa canina), thyme extract (Thymus vulgaris), purple coneflower extract (Echinacea purpurea), nettle extract (Urtica dioica), dandelion extract (Taraxacum officinale), nigella (Nigella sativa), marshmallow plant (Althaea officinalis), cistus (Cistus L.), liquorice root extract (Glycyrrhiza glabra), inulin, brown marine algae (Ascophyllum Nodosum)

ImmunoDol®
ImmunoDol® Cat

IMMUNITY BOOST
BETA-1,3/1,6-GLUCAN

- Highly purified beta-1,3/1,6-glucan isolated from Saccharomyces cerevisiae yeast cell walls
- Mannan-oligosaccharides – prebiotic effect
- Immunity enhancement against infections
- Stimulation of immune cells
- Activation of macrophages that destroy microorganisms
- Support in antibiotic therapy
- Antioxidant effect – protection against free radicals
- Supports tissue regeneration

Indications
- Reduced immunity
- Autumn and winter periods
- Support in infections
- Support in anti-cancer therapy
- Convalescence after diseases
- In stressful situation (e.g. mating)

How to apply
Tablets
dogs under 20 kg body weight – 1 tablet / day
dogs over 20 kg body weight – 2 tablets / day
Mini tablets
cats and small dogs – 1 tablets / day

Packaging
90 tablets
30 tablets
60 mini tablets
700 g tablets

Composition per tablet

Beta-1,3/1,6-glucan	80 mg

Brewer's yeast

Composition per mini tablet

Beta-1,3/1,6-glucan	40 mg

Brewer's yeast

ImmunoDol® Paste

IMMUNITY BOOST
BETA-1,3/1,6-GLUCAN

- Highly purified beta-1,3/1,6-glucan isolated from Saccharomyces cerevisiae yeast cell walls – stimulates immune cells, increases macrophage activity, fights microorganisms
- Borage oil and fish oil – rich in essential fatty acids to strengthen immunity

Indications
- Reduced immunity
- Autumn and winter periods
- Support in infections
- Support in anti-cancer therapy
- Convalescence from diseases
- In stressful situation (e.g. mating)

How to apply
cats and small dogs – 1-2 g / day
medium dogs – 2-3 g / day
large dogs – 4-5 g / day
1 teaspoon = 5 g

Packaging
100 g

Composition per 1 kg

Beta-1,3/1,6-glucan	40 000 mg
Gamma-linolenic acid (GLA)	6 000 mg
Linoleic acid (LA)	17 300 mg
Eicosapentaenoic acid (EPA)	1 800 mg
Docosahexaenoic acid (DHA)	1 200 mg
Alpha-linolenic acid (ALA)	35 000 mg

Mannan-oligosaccharides (MOS), essential fatty acids (EFAs), phospholipids

Brewer's yeast, lecithin, borage oil, fish oil

Carcifin®

SUPPORT IN CANCER THERAPY

- Composition of vitamins and natural plant extracts – enhancement of psychomotor condition
- Rich source of natural polyphenolic compounds and amino acids, curcumin, capsaicin – decreases the rate of cancer cell proliferation
- Natural immune factors – beta-1,3/1,6-glucans, mannan-oligosaccharides – stimulation of the immune system
- CLA, HMB – strength and vitality, inhibition of protein breakdown
- Strong antioxidant effects – neutralisation of free radicals
- Improved quality of life

Indications

- Supporting cancer therapy
- Body weakness
- Cancer-related stress
- Reduced immunity

How to apply

Tablets

dogs and cats:
under 10 kg body weight – 1 tablet / day
10-20 kg body weight – 2 tablets / day
20-30 kg body weight – 3 tablets / day
over 30 kg body weight – 4 tablets / day

Mini tablets

dogs and cats:
under 3 kg body weight – 1 tablet / day
3-6 kg body weight – 2 tablets / day
7-10 kg body weight – 3 tablets/ day

Packaging

90 tablets
60 mini tablets

Composition per tablet

Beta-1,3/1,6-glucan	80 mg
Vitamin A	2 000 IU
Vitamin D	200 IU
Vitamin E	12 mg
Vitamin K	400 µg
Vitamin C	50 mg
L-Arginine	20 mg
Zinc	3 000 µg
Selenium	60 µg

Mannan-oligosaccharides (MOS), curcumin, capsaicin, quercetin, thymol, carvacrol, flavonoids, polyphenols

HMB (calcium salt of 3-hydroxy-3-methylbutyrate), CLA (conjugated linoleic acid), turmeric extract (Curcuma longa), nettle extract (Urtica dioica), dandelion extract (Taraxacum officinale), nigella (Nigella sativa), rosehip (Rosa canina), green tea extract (Camellia sinensis), thyme extract (Thymus vulgaris), purple coneflower extract (Echinacea purpurea), paprika extract (Capsicum annuum)

Dolvit® **Spirulina**

Composition per tablet	
Spirulina	965 mg
Crude protein	62%

VITALITY AND HEALTH

- Marine algae rich in high-quality protein, vitamins, minerals and other valuable nutrients
  - strengthening of the immune system
  - improvement of the digestive tract
  - supports detoxification of the body
  - reducing the rate of cancer cell growth
  - reducing the incidence of allergies
  - supporting the muscular system
  - strength and vitality

Indications

- Body weakness
- Reduced immunity
- Support in anti-allergy therapy
- Support in anti-cancer therapy
- Recovery from illness and surgery
- Supplementation of the daily diet

How to apply

Tablets

small dogs – 1 tablet /day
medium dogs – 2 tablets /day
large dogs – 3 tablets /day

Mini tablets

1 tablet per 3 kg body weight / day

Packaging

90 tablets
90 mini tablets

Dolvit® Calm

REDUCES STRESS, CALMS DOWN

- Stress reduction
- Alleviating anxiety
- Calming and keeping balance

Indications

- Stressful situations i.e.: travel, exhibition, storm, fireworks, vet appointment, meeting other animals
- Anxiety
- Organisms burdened by long-term treatment
- Change of environment
- Prolonged time spent at home without the owner
- Excessive agitation, tendency towards aggression, nervousness

How to apply

Tablets

dogs and cats:
under 10 kg body weight – 1 tablet / day
10-20 kg body weight – 2 tablets / day
20-30 kg body weight – 3 tablets / day
over 30 kg body weight – 4 tablets / day

Mini tablets

1 tablet per 3 kg body weight / day

If necessary, the number of tablets can be increased two or three times.

Packaging

90 tablets
30 tablets
40 mini tablets

Composition per tablet

L-Tryptophan	100 mg
Valerian extract (Valeriana officinalis)	30 mg
Lemon balm extract (Melissa officinalis)	30 mg
Magnesium	40 mg
Iron	2 mg
Vitamin B_6	150 µg

Green tea extract (Camellia sinensis), brewer's yeast

Dolvit® **Cannabis**

CBD, BETA-GLUCANS, ANTIOXIDANTS

- Strengthening immunity
- Restoration of body homeostasis
- Improving performance
- Improving fitness and well-being
- Supporting the nervous system e.g. in epilepsy
- Alleviating stress, anxiety, aggression

Indications

- Weakness, decline in fitness
- Reduced immunity
- Animals in pain
- Stress, anxiety, aggression
- Lack of appetite, digestive problems
- Support in cancer therapy
- Support in the alleviation of epileptic symptoms
- Old age

How to apply

cats and small dogs – 1 tablet / day
medium dogs – 2-3 tablets / day
large dogs – 4 tablets / day

Packaging

90 tablets
30 tablets

Composition per tablet

CBD oil 10%	40 mg
Beta-1,3/1,6-glucan	48 mg
Vitamin D_3	100 IU
Vitamin C	5 mg
Vitamin E	3 mg
Vitamin B_6	2 mg

Phytonutrients (e.g. CBDA, CBDV, CBG, CBC, CBN, CBGA)

Hemp oil (Cannabis sativa L.), brewer's yeast, rosemary extract (Rosmarinus officinalis)

1 tablet contains 4 mg of CBD

Cannabis Paste
Dolvit® Cannabis Oil

CBD, BETA-GLUCANS, OMEGA ACIDS, ANTIOXIDANTS

- Strengthening immunity
- Improving general health – restoration of body homeostasis
- Improving fitness
- Strengthening shape and well-being
- Supporting the nervous system e.g. in epilepsy
- Alleviating stress, anxiety, aggression

Indications

- Weakness, decline in fitness
- Reduced immunity
- Animals in pain
- Stress, anxiety, aggression
- Lack of appetite, digestive problems
- Support in cancer therapy
- Support in the alleviation of epileptic symptoms
- Old age

How to apply

Paste

0.6 g (2 cm) of paste per 5 kg body weight twice a day

Oil

1-2 drops per 5 kg body weight / day

Packaging

100 g paste
10 ml

Composition per 1 kg of paste

CBD oil 10%	33 300 mg
Beta-1,3/1,6-glucan	40 000 mg
Vitamin D_3	80 000 IU
Vitamin C	4 200 mg
Vitamin E	2 500 mg
Vitamin B_6	1 700 mg

Phytonutrients (including CBDA, CBDV, CBG, CBC, CBN, CBGA), acids: omega-6, omega-3, omega-9

Borage oil, hemp oil (Cannabis sativa L.), brewer's yeast, lecithin

0.6 g of paste contains 2 mg of CBD

Additives in 1 ml of oil

CBD oil 30%	220 mg
Tocopherol extracts from vegetable oils	1.8 mg

Phytonutrients (including CBDA, CBDV, CBG, CBC, CBN, CBGA), acids: omega-6, omega-3, omega-9

Borage oil (Borago officinalis L.), hemp oil (Cannabis sativa L.)

1 drop contains 2 mg of CBD

Dolvit® **Allergy**

SUPPORT IN ALLERGY

- Alleviation of allergy symptoms of various origins
- Inhibition of histamine release
- Blocking allergic reactions

Indications
- Allergies of various origins
- Support in anti-allergic therapy

How to apply
Tablets
dogs under 20 kg body weight – 1 tablet / day
dogs over 20 kg body weight – 2 tablets / day
Mini tablets
dogs and cats under 5 kg body weight – 1 tablet / day

Packaging
90 tablets
60 mini tablets

Composition per tablet	
Vitamin C	100 mg
Vitamin B_6	60 µg
Pantothenic acid	300 µg
Folic acid	20 µg

Curcumin, quercetin, phlorotannin, fucoidin

Turmeric extract (Curcuma longa), nettle extract (Urtica dioica), rosemary extract (Rosmarinus officinalis), nigella (Nigella sativa), rosehip (Rosa canina), spirulina, brewer's yeast, red marine algae (lithothamne), calcium carbonate from oyster shell, calcium citrate

Dolvit® Omega

HEALTHY SKIN AND SHINY COAT

- High level of unsaturated fatty acids omega-3 and omega-6 in the appropriate ratio
- Proper hydration, elasticity and nutrition of the skin
- Irritation relief, regeneration
- Boosting the immune system
- Shiny, dense, strong coat

Indications

- Support in dermatoses
- Supportive in atopic dermatitis
- Skin irritations
- Supportive in skin allergies
- Flaking of the epidermis
- Supportive in seborrhoea
- Dry, dull coat
- Excessive hair loss

How to apply

dogs and cats:
under 10 kg body weight – 15 drops / day
over 10 kg body weight – 15-30 drops / day
1 ml = 15 drops

Packaging

50 ml

Additives in 1 ml

Vitamin E (DL- α-Tocopherol)	4.5 mg
Tocopherol extracts from vegetable oils	1.8 mg
Gamma-linolenic acid (GLA)	146 mg
Linoleic acid (LA)	255 mg
Eicosapentaenoic acid (EPA)	46.3 mg
Docosahexaenoic acid (DHA)	30.8 mg
Alpha-linolenic acid (ALA)	3 mg

Borage oil, fish oil, linseed oil

Dolvit® Biotin

HEALTHY SKIN AND SHINY COAT

- Biotin, amino acids, zinc, B vitamins
- Diatomite – a source of highly absorbable silicon – hair-building material
- Correct development and formation of the coat
- Hair growth stimulation
- Increased density, fluffiness and shine of the coat
- Hair loss prevention
- Strengthening of hair and claws
- Healthy, well-moisturised, flexible skin

Indications

- Dull coat
- Excessive skin exfoliation
- Dry skin
- Excessive sebum production
- Increased hair brittleness
- Increased hair loss
- Prolonged periods of shedding
- Period after nursing puppies

How to apply

Powder: 1 measure (2.5 g) per 10 kg body weight / day
Tablets: 1 tablet per 10 kg body weight / day
Mini tablets: 1 tablet per 3 kg body weight / day

In case of severe hair loss and permanent dull hair, doubling the serving is recommended.

Packaging

90 tablets

Lysine	26 mg
Methionine + Cystine	20 mg
Threonine	17 mg
Tryptophan	3.7 mg
Valine	17 mg
Tyrosine	32 mg

Brewer's yeast, diatomaceous earth (diatomite)

Dolvit® Biotin Cat

HEALTHY SKIN AND SHINY COAT

- Biotin, amino acids, zinc, B vitamins
- Diatomite – a source of highly absorbable silicon – hair-building material
- Correct development and formation of the fur coat
- Hair growth stimulation
- Increase in density, fluffiness and shine of the coat
- Hair loss prevention
- Strengthening of hair and claws
- Healthy, well-moisturised, flexible skin

Indications

- Dull coat
- Excessive skin exfoliation
- Dry skin
- Excessive sebum production
- Increased hair brittleness
- Increased hair loss
- Prolonged periods of shedding
- Period after nursing puppies

How to apply

1 tablet per 3 kg body weight / day

In case of severe hair loss and permanent dullness of the hair, it is recommended to double the serving.

Packaging

90 mini tablets

Composition per tablet	
Biotin	500 µg

Brewer's yeast, diatomaceous earth (diatomite)

ArthroFos®

PROPER JOINT FUNCTIONING

- Glucosamine – stimulation of glycosaminoglycan synthesis – beneficial effects on health, regeneration and joints mobility
- Chondroitin sulphate from shark cartilage – protects cartilage from damage, supports the regeneration of damaged joints
- Vitamin C – synthesis of collagen – the main component of joint cartilage
- Copper – proper functioning of articular cartilage in joints
- Manganese, magnesium – regeneration of articular cartilage

Indications

- Intensive growth, especially in young dogs of large breeds
- Old age and resulting degenerative changes
- Reluctance to exercise
- Convalescence from trauma and orthopaedic surgery
- Dogs exposed to high joint stress (sport, work)

How to apply

1 tablet per 20 kg body weight / day

Packaging

90 tablets
60 tablets
800 g tablets

Composition per tablet	
Glucosamine	300 mg
Chondroitin sulphate	250 mg
Vitamin C	25 mg
Manganese	1.15 mg
Copper	1 mg
Magnesium	1 mg

ArthroFos® Cat

PROPER JOINT FUNCTIONING

- Glucosamine – stimulation of glycosaminoglycan synthesis – beneficial effects on health, regeneration and joints mobility
- Chondroitin sulphate from shark cartilage – protects articular cartilage from damage, supports the regeneration of damaged joints
- Vitamin C – synthesis of collagen – the main component of joint cartilage
- Manganese – regeneration of articular cartilage

Indications

- Intensive growth
- Old age and resulting degenerative changes
- Reluctance to move
- Convalescence from trauma and orthopaedic surgery

How to apply

1-2 tablets / day

Packaging

90 mini tablets

Composition per tablet	
Glucosamine	150 mg
Chondroitin sulphate	150 mg
Vitamin C	10 mg
Manganese	1 mg

Arthro Paste

SUPPORTING JOINT METABOLISM

- Glucosamine and chondroitin – essential components of joint fluid and articular cartilage – proper nutrition of joints
- Collagen – nourishment of the articular cartilage, protection against injury
- Hyaluronic acid – synovial fluid component – increases the elasticity of articular cartilage
- L-methionine – joint protection
- Essential fatty acids, Curcuma longa – support joint mobility
- Highly absorbable silicon – strengthening of bones and tendons
- Vitamin C, manganese – collagen synthesis, normal development of bones and joints
- Vitamin E, C – natural antioxidants – protection against free radicals

Indications

- Support in osteoarthritis
- Support in degenerative changes of the musculoskeletal system
- Difficulties with movement
- Intensive growth
- Convalescence after injury and orthopaedic surgery
- Increased activity

How to apply

cats and small dogs – 1-2 g / day
medium dogs – 2-4 g / day
large dogs – 4-5 g / day
1 teaspoon = 5 g

Packaging

100 g

Composition per 5 g

Glucosamine	300 mg
Chondroitin sulphate	300 mg
Hydrolyzed collagen	200 mg
Hyaluronic acid	40 mg
Vitamin C	50 mg
Vitamin E	10 mg
Silicon	51 mg
Manganese	1.15 mg
L-Methionine	50 mg
Omega-6 acids	5 000 mg
Omega-3 acids	1 000 mg
Eicosapentaenoic acid (EPA)	30 mg
Docosahexaenoic acid (DHA)	20 mg
Methionine	52 mg

Phospholipids, polyphenols

Fish oil, lecithin, brewer's yeast, diatomaceous earth (diatomite)

ArthroFos® Forte

PROPER JOINT FUNCTIONING

- Glucosamine and chondroitin sulphate – proper development, functioning and regeneration of joints
- Micronutrients from hydroxy chlorides – regeneration of articular cartilage, collagen synthesis
- Antioxidant complex – protection of the organism against impact of free radicals
- L-carnitine – correct weight – minimises stress on the joints
- Boswellic acids, curcumin, nettle extract – correct joint mobility

Indications

- Intensive growth, especially in young dogs of large breeds
- Old age and resulting degenerative changes
- Supportive in inflammatory conditions of bones and joints
- Reluctance to exercise
- Overweight
- Convalesence after injury and orthopaedic surgery
- Dogs exposed to high joint stress (sport, work)

How to apply

1 measure (4 g) per 10 kg body weight / day

Packaging

700 g
1 kg

Composition per 1 kg

Glucosamine	30 000 mg
Chondroitin sulphate	25 000 mg

Manganese	200 mg
Iodine	5 mg
Selenium	3 mg
Boswellic acids	14 000 mg
Silicon	20 000 mg
Magnesium	1 000 mg

Brewer's yeast, magnesium oxide, Indian frankincense extract (Boswellia serrata), turmeric extract (Curcuma longa), nettle extract (Urtica dioica), diatomaceous earth (diatomite)

ArthroHA®

PROPER JOINT FUNCTIONING

- Hyaluronic acid (HA) – essential component of the synovial fluid – improved penetration of nutrients into tissues, elasticity, resilience of tissues, resistance of joints to strain
- Glucosamine – strengthening of articular cartilage
- Chondroitin from shark cartilage – support proper functioning of joints
- Green-lipped mussel (Perna canaliculus) – high content of GAGs (glycosaminoglycans) and omega-3 fatty acids (EPA, DHA, ETA) – beneficial effects on collagen synthesis and articular cartilage metabolism
- MSM (methylsulfonylmethane) – collagen synthesis, joint reconstruction

Indications

- Support in bone and joint disorders
- Support in degenerative changes of the musculoskeletal system
- Difficulties with movement
- Intensive growth
- Convalescence after injuries and orthopaedic surgery
- Animals exposed to high joint stress (sport, work)

How to apply

Tablets

dogs under 20 kg body weight – 1 tablet / day
dogs over 20 kg body weight – 2 tablets / day

Mini tablets

dogs and cats under 5 kg body weight – 1 tablet / day

Packaging

90 tablets
60 tablets
40 mini tablets
800 g tablets

Composition per tablet	
Green-lipped mussel	200 mg
MSM	150 mg
Glucosamine	150 mg
Chondroitin sulfate from shark cartilage	100 mg
Hyaluronic acid	10 mg
Vitamin C	25 mg
Manganese	1.15 mg
Copper	1 mg
Magnesium	1 mg

ArthroDol®

PROPER JOINT FUNCTIONING

Composition per tablet	
Harpagophytum procumbens extract	350 mg
MSM (methylsulfonylmethane)	400 mg

- Devil's claw (Harpagophytum procumbens) – improves mobility of musculoskeletal system
- MSM – organic sulphur compound – joint reconstruction, impoved regeneration of muscular, connective and cartilage tissue

Indications
- Dogs in pain
- Supportive in inflammatory conditions of bones and joints, rheumatism
- Convalesence after trauma and orthopaedic surgery

How to apply
Tablets
dogs under 20 kg body weight – 1 tablet / day
dogs over 20 kg body weight – 2 tablets / day
Mini tablets
dogs and cats under 5 kg body weight – 1 tablet / day

Packaging
90 tablets
30 tablets
60 mini tablets

ArthroCollagen®

ARTICULAR CARTILAGE PROTECTION

Composition per tablet	
Hydrolyzed collagen type II	200 mg
Green-lipped mussel	70 mg
Chondroitin sulphate	60 mg
Hyaluronic acid	5 mg
Vitamin C	25 mg

- Collagen – proper production of the synovial fluid – elasticity and regeneration of tendons, increased bone density
- Green-lipped mussel – source of valuable omega-3 fatty acids and glycosaminoglycans (GAGs) – joint nutrition and hydration
- Chondroitin sulphate from shark cartilage – protects articular cartilage from damage, supports the regeneration of damaged joints
- Hyaluronic acid – synovial fluid component – increases the elasticity of articular cartilage
- Vitamin C – inhibition of free radicals

Indications

- Intensive growth of young dogs
- Support in joint dysfunction
- Joint stiffness
- Degenerative changes in the joints
- Convalesence after injury and orthopaedic surgery
- Reluctance to exercise

How to apply

Tablets

dogs:
under 20 kg body weight – 1 tablet / day
20-40 kg body weight – 2 tablets / day
over 40 kg body weight – 3 tablets / day

Mini tablets

dogs and cats under 5 kg body weight – 1 tablet / day

Packaging

90 tablets
60 mini tablets

ArthroMax®

PROPER JOINT FUNCTIONING

- Joint protection formula in syrup form
- Glucosamine and chondroitin – essential components of joint synovium and articular cartilage – proper nutrition of the joints
- Hyaluronic acid (HA) – essential component of the synovial fluid – increases penetration of nutrients into tissues
- Devil's claw (Harpagophytum procumbens) – supports mobility of the musculoskeletal system
- MSM – organic sulphur compound – joint reconstruction
- Vitamin C – collagen synthesis, antioxidant effect

Indications

- Support in treatment of osteoarthritis
- Support in degenerative changes in the musculoskeletal system
- Animals in pain
- Difficulty in movement
- Intensive growth
- Recovery after trauma and orthopaedic surgery
- Animals exposed to high joint stress (sport, work)

How to apply

cats – 1-2.5 ml / day
dogs under 20 kg body weight – 2.5 ml / day
dogs over 20 kg body weight – 5 ml / day
dogs over 50 kg body weight – 7.5 ml / day

Packaging

500 ml
250 ml

Composition per 5 ml	
Glucosamine	600 mg
Chondroitin sulphate	300 mg
MSM (methylsulfonylmethane)	250 mg
Harpagophytum procumbens extract	150 mg
Hyaluronic acid	40 mg
Vitamin C	50 mg

Dolvit® **Fit**

CORRECT WEIGHT AND SHAPE

- CLA - Regulation of glucose and fatty acid metabolism in tissue cells
- L-carnitine – conversion of long-chain fatty acids into energy
- Zinc – regulation of blood sugar levels
- Green tea, lecithin – reduces the absorption of fats from food and their accumulation in the body
- Reduction of body fat
- Reduction of cholesterol, triglycerides and blood sugar levels
- Increase in muscle mass
- Reducing the risk of overweight
- Improved fitness
- Active, healthy and long life

Indications

- Overweight
- Too massive physique
- Weakened condition
- High blood cholesterol levels
- Support in diabetes

How to apply

dogs and cats:
under 10 kg body weight – 1-2 g (1-2 measures) / day
10-20 kg body weight – 2-3 g (2-3 measures) / day
20-30 kg body weight – 3-4 g (3-4 measures) / day
over 30 kg body weight – 4-5 g (4-5 measures) / day

Packaging

200 g
60 g

Composition per 1 kg

CLA (conjugated linoleic acid)	300 000 mg
L-Carnitine	100 000 mg
Zinc	2 000 mg
Magnesium	40 000 mg
Vitamin C	10 000 mg
Vitamin B_6	50 mg

Mannan-oligosaccharides (MOS), essential fatty acids (EFAs), catechins, phospholipids, flavonoids

Green tea extract (Camellia sinensis), lecithin, inulin, chitosan, brewer's yeast, magnesium oxide

Dolvit® **Sport**

AGILITY, STRENGTH AND ENERGY

- Increased fitness and performance
- Proper functioning of the musculoskeletal system
- Excellent shape
- Increased energy
- Development and regeneration of the muscle tissue
- Improved efficiency of the cardiac muscle
- Reinforcement of the immune system

Indications

- Increased physical activity
  – sport, working and show dogs
- Post-exercise regeneration

How to apply

dogs:
under 10 kg of body weight – 1 measure (1 g) twice a day
10-20 kg of body weight – 2 measures (2 g) twice a day
20-30 kg of body weight – 3 measures (3 g) twice a day
over 30 kg body weight – 4 measures (4 g) twice a day

Packaging

250 g
70 g

Composition per 1 kg

HMB (calcium salt of 3-hydroxy-3-methylbutyrate)	150 000 mg
MSM (methylsulfonylmethane)	50 000 mg
Magnesium	30 000 mg
L-Arginine	40 000 mg
L-Carnitine	30 000 mg
Taurine	10 000 mg
Vitamin C	30 000 mg
Vitamin E	5 500 mg
Vitamin A	50 225 IU
Vitamin D_3	10 000 IU
Vitamin B_1	100 mg
Vitamin B_2	110 mg
Vitamin B_6	100 mg
Vitamin B_{12}	2 000 µg

Glucosamine, hyaluronic acid, collagen, phospholipids, glycosaminoglycans (GAGs), omega acids 3, gamma-linolenic acid (GLA), mannan-oligosaccharides (MOS), Lysine 4 000mg, Methionine+Cystine 2 700mg, Threonine 1 300mg, Valine 4 570mg, Isoleucine 3 830mg, Glutamic acid 10 000mg, Leucine 5 900mg, Hydroxyproline 1 650mg, Aspartic acid 640mg

Green-lipped mussel (Perna canaliculus), hydrolyzed collagen, spirulina, brewer's yeast, inulin, lecithin, magnesium oxide

Energy Paste

ENERGY, SHAPE

- Achieving and maintaining good condition
- Increased energy and vitality
- Strengthening of the body

Indications

- Convalesence after surgical procedures, illnesses
- Long-term stress
- Female dogs weakened after delivery
- Weakness, loss of energy
- Lack of appetite

How to apply

cats and small dogs – 3 g / day
medium dogs – 6 g / day
large dogs – 12 g / day
1 teaspoon = 6 g

If necessary, the serving can be doubled.

Packaging

100 g

Composition per 1 kg	
Vitamin A	200 000 IU
Vitamin D_3	10 000 IU
Vitamin E	2 500 mg
Vitamin C	10 000 mg
Biotin	60 000 µg
Taurine	5 000 mg
Iron	110 mg
Iodine	90 mg
Metabolic energy	24 MJ
Crude protein	6.5%
Crude fat	54%

Phospholipids, omega-3 and omega-6 acids

Soybean oil, coconut oil, whey powder, lecithin, fish oil

Dolvit® **HMB**

SHAPE, AGILITY, MUSCLES

- Development of muscle mass
- Protects the body from muscle protein loss
- Increased strength and performance
- Improved efficiency

Indications

- Increased physical activity – sport and working animals
- Post-exercise regeneration
- Convalesence after surgery and diseases
- Support for a body weakened by prolonged stress
- Support in musculoskeletal disorders

How to apply

dogs and cats:
under 10 kg body weight – 1 tablet twice a day
10-20 kg body weight – 2 tablets twice a day
20-30 kg body weight – 3 tablets twice a day
over 30 kg body weight – 4 tablets twice a day

Administer the formula in the morning and evening.

Packaging

90 tablets
30 tablets

Composition per tablet

HMB (calcium salt of 3-hydroxy-3-methylbutyrate)	250 mg

Brewer's yeast

Dolvit® **Carnitine**

Composition per tablet

L-Carnitine	100 mg

Brewer's yeast

PROPER BODY SHAPE AND ENERGY

- Inhibition of adipose tissue formation
- Conversion of long-chain fatty acids into energy
- Supporting correct cardiac muscle function
- Supporting skeletal muscle function
- Supports nervous system function
- Antioxidant properties
- Enhanced body detoxification
- Increased energy and vitality
- Improved performance

Indications

- Increased physical activity
- Overweight
- Old age
- Decrease in energy

How to apply

Tablets

1 tablet per 10 kg body weight / day

Mini tablets

1 tablet per 3 kg body weight / day

Packaging

90 tablets
90 mini tablets
800 g tablets

Dolvit® **Isotonic**

WATER-ELECTROLYTE BALANCE

- Stabilisation of the water-electrolyte balance
- Equalisation and maintenance of correct electrolyte levels in the blood
- Easily digestible energy

Indications

- Dehydration
- Support in digestive disorders i.e. diarrhoea, vomiting
- Convalesence
- Hot weather
- Travelling
- Prolonged physical activity
- Pregnancy and nursing

How to apply

Dissolve the contents of the pouch (25 g) in 1 litre of water. Make sure that the prepared solution remains accessible all the time.

Packaging

10 pouches of 25 g
250 g

Composition per 25 g	
Vitamin C	30 mg
Zinc	15 mg
Potassium	452 mg
Sodium	435 mg
Chlorides	355 mg
Calcium	53 mg
Magnesium	20 mg

Glucose, maltodextrin, potassium carbonate, sodium bicarbonate, sodium chloride, calcium citrate, magnesium lactate

DeoDol®

STOP TO BAD ODOURS

- Chlorophyll – inhibits the formation of unpleasant odours produced by dogs
- Zinc amino acid chelate – ability to attach to sulphur-containing compounds (e.g. hydrogen sulphide), responsible for unpleasant odours
- Mojave yucca (Yucca schidigera) – regulation of feed passage, reduction of stool odour
- Brewer's yeast – valuable source of B vitamins – regulation of digestive processes

Indications

- Odours: muzzle odour, body odour, stool odour, fecal odour
- Support in digestive disorders

How to apply

Tablets

small dogs – 1 tablet / day
medium dogs – 2-3 tablets / day
large dogs – 4-6 tablets / day

Mini tablets

small dogs – 1-3 tablets / day

During heat, the number of tablets may be doubled.

Packaging

90 tablets
60 mini tablets

Composition per tablet

Chlorophyll	20 mg
Zinc chelate	10 mg

Mojave yucca (Yucca schidigera), brewer's yeast

Dolvit® **ProDental** powder

Composition per 1 kg	
Brown marine algae (Ascophyllum nodosum)	
Purple coneflower extract (Echinacea purpurea)	
Zinc chelate	20 000 mg

DENTAL CARE

- Reduction of dental problems
- Addressing unpleasant mouth odour
- Maintenance of good oral hygiene
- Prevention of plaque and tartar formation

Indications

- Tartar
- Plaque overgrowth
- Unpleasant mouth odour
- Support in gum disorders
- Regular oral hygiene

How to apply

dogs and cats
under 15 kg body weight – 0.5-1 measure / day
15-30 kg body weight – 1.5-2 measures / day
over 30 kg body weight – 2-3 measures / day
1 measure = 0.5 g

Administer with a meal.

Packaging

70 g
30 g

Probiotic Paste
Dolvit® Probiotic

PROBIOTICS AND PREBIOTICS

- Proper functioning of the digestive tract
- Proper nutrients absorption
- Digestive support
- Supporting proliferation of beneficial intestinal microflora
- Reduced growth of unfavourable bacteria in the digestive tract
- Protection of the digestive tract mucosa
- Correct stool consistency
- Reduced risk of intestinal disorders (diarrhoea, constipation, inflammations)
- Strengthening of the immune system

Indications

- Support in digestive disorders (e.g.: diarrhoea, constipation)
- Antibiotic therapy
- Deworming
- Change in diet
- Stressful situations
- Travel
- Young and growing animals
- Diarrhoea-prone animals
- Abnormal consistency of stool
- Gas, flatulence

How to apply

Paste: 2-4 g twice a day
1 teaspoon = 6 g
Tablets: 1-2 tablets / day
Mini tablets: 1-2 tablets / day

Packaging

50 g paste
60 tablets
60 mini tablets

Composition per 1 kg of paste
Probiotic Enterococcus faecium DSM 10663 NCIMB 10415 1.5x10^{12} CFU
Beta-1,3/1,6-glucan
Mannan-oligosaccharides (MOS)
Fructooligosaccharides (FOS)
Essential fatty acids
Brewer's yeast, soybean oil, fish oil, inulin

Composition per tablet
Probiotic Enterococcus faecium DSM 10663 NCIMB 10415 1.5x10^{9} CFU
Beta-1,3/1,6-glucan
Mannan-oligosaccharides (MOS)
Brewer's yeast

Composition per mini tablet
Probiotic Enterococcus faecium 10663 NCIMB 10415 1,5x10^{9} CFU
Inulin, fructooligosaccharides (FOS)

STOPER Paste
Dolvit® STOPER

GASTROINTESTINAL DISORDERS

- Alleviating symptoms of diarrhoea
- Stabilisation of the digestive tract
- Regeneration of the intestinal mucosa
- Improvement of faecal consistency
- Inactivation of toxins and other harmful substances

Indications
- Acute gastrointestinal disorders
- Diarrhoea
- Supportive treatment in case of food poisoning
- Convalescence after digestive disorders

How to apply
Paste
cats and small dogs – 3 g / day
medium dogs – 6 g / day
large dogs – 9-12 g / day
1 teaspoon = 6 g

Tablets
dogs and cats:
under 10 kg body weight – 1 tablet / day
10-20 kg body weight – 2 tablets / day
20-30 kg body weight – 3 tablets / day
over 30 kg body weight – 4 tablets / day

Mini tablets
1 tablet per 5 kg body weight / day

If needed, the serving can be doubled.

Packaging
50 g paste
30 tablets
30 mini tablets

Composition per 1 kg of paste

Smectite	100 g
Probiotic Saccharomyces cerevisiae	
Chestnut tannin extract (Castanea sativa Mill)	
Beta-1,3/1,6-glucan	
Mannan-oligosaccharides (MOS)	
Fructooligosaccharides (FOS)	
Mojave yucca (Yucca schidigera)	
Essential fatty acids	

Soybean oil, brewer's yeast, lecithin, fish oil, pectin, potassium carbonate

Composition per tablet

Smectite	300 mg
Chestnut tannin extract (Castanea sativa Mill)	
Beta-1,3/1,6-glucan	
Mannan-oligosaccharides (MOS)	
Fructooligosaccharides (FOS)	
Mojave yucca (Yucca schidigera)	

Brewer's yeast, pectin, potassium carbonate

Dolvit® Gastro

Composition per 1 kg

Butyric acid	60 g

Encapsulated sodium butyrate, inulin

PROPER FUNCTIONING OF THE DIGESTIVE TRACT

- Proper functioning of the gastrointestinal tract mucosa
- Stomach and intestinal protection – accelerating regeneration of the epithelium, increasing integrity
- Proper development and functioning of intestinal villi
- Reduced growth of pathogenic microorganisms present in the gastrointestinal tract
- Stimulating the proliferation of lactic acid bacteria – optimization of intestinal function
- Strengthening immunity

Indications

- Mucosal disorders of the gastrointestinal tract
- Recurrent digestive problems
- Tendency to diarrhea, constipation
- Gas, flatulence
- Support in inflammatory bowel conditions
- Support in the treatment of intestinal cancer
- Support in irritable bowel syndrome
- Support in diabetes
- Convalescence after gastrointestinal surgeries

How to apply

dogs and cats:
under 10 kg body weight – 1 measure (0.7 g) / day
10-20 kg body weight – 2 measures (1.4 g) / day
20-30 kg body weight – 3 measures (2.1 g) / day
over 30 kg body weight – 4 measures (2.8 g) / day

The formula should be administered with a meal.
It is recommended to seek veterinary advice before use.

Packaging

80 g

Dolvit® **Gland**

PROPER FUNCTIONING OF THE ANAL GLANDS

- Correct formation of stool – proper defecation
- Supporting natural emptying of the peri-anal sinuses
- Prebiotics, beta-1,3/1,6-glucan, mannan-oligosaccharides – support of the digestive tract, multiplication of the desirable intestinal bacteria
- Smectite – binding and removal of toxins and other harmful substances
- Plant extracts – natural source of antioxidants, polyphenols, flavonoids – strengthening the organism, inhibition of free radical formation
- Pectin – protection of the mucous membrane of the digestive tract, support of intestinal peristalsis
- Improved well-being

Indications

- Problems with emptying of the anal glands
- Susceptibility to infections of the anal glands
- Scooting a bottom across the floor
- Rectum swelling
- Supportive in digestive disorders (diarrhoea, constipation)

How to apply

Tablets

dogs:
under 10 kg body weight – 1 tablet / day
10-20 kg body weight – 2 tablets / day
20-30 kg body weight – 3 tablets / day
over 30 kg body weight – 4 tablets / day

Mini tablets

cats and small dogs – 1-3 tablets / day

Packaging

60 tablets
60 mini tablets

Composition per tablet	
Smectite	150 mg
Vitamin C	10 mg
Zinc	2.5 mg
Beta-1,3/1,6-glucan	
Mannan-oligosaccharides (MOS)	
Fructooligosaccharides (FOS)	

Curcumin, glycosides, flavonoids, cucurbitacin

Pumpkin seed (Cucurbita pepo), turmeric extract (Curcuma longa), dandelion extract (Taraxacum officinale), sage (Salvia officinalis), rosehip (Rosa Canina), rosemary extract (Rosmarinus officinalis), chestnut tannin extract (Castanea sativa Mill), pectin, brewer's yeast, inulin

Dolvit® **Cayenne**

STOP STOOL EATING

- Supplementation of deficiencies that can lead to stool eating – vitamins, minerals, digestive enzymes, probiotics, prebiotics, substances of plant origin
- Effective in discouraging dogs from eating faeces
- Regulation of the digestive tract
- Proper absorption of nutrients

Indications

- Coprophagia
- Supportive in digestive disorders
- Disruption of the intestinal microflora
- Nutrient malabsorption

How to apply

Tablets

dogs:
under 10 kg body weight – 1 tablet / day
10-20 kg body weight – 2 tablets / day
20-30 kg body weight – 3 tablets / day
over 30 kg body weight – 4 tablets / day

Mini tablets

dogs:
under 3 kg body weight – 1 tablet / day
3-6 kg body weight – 2 tablets / day
7-10 kg body weight – 3 tablets / day

Packaging

90 tablets
60 mini tablets

Composition per tablet

Probiotic Enterococcus faecium DSM 10663 NCIM 10415 $6x10^8$ CFU	
Vitamin B_1	0.4 mg

Capsaicin, saponins, phytosterols, beta-1,3/1,6 -glucan, mannan-oligosaccharides (MOS)

Mojave yucca (Yucca schidigera), paprika extract (Capsicum annuum), brewer's yeast

AmylaDol® Paste
AmylaDol®

DIGESTIVE ENZYMES

- Proper digestion and absorption of nutrients
- Regeneration of the digestive tract
- Normalisation of the digestive tract functions
- Supporting pancreatic function

Indications
- Support in digestive and absorption disorders
- Support in pancreatic disorders
- Decreased appetite
- Food intolerances

How to apply
Paste
cats and small dogs – 1-2 g / day
medium dogs – 4 g / day
large dogs – 6 g / day
1 teaspoon = 6 g
Tablets
cats and small dogs – 1 tablet / day
medium dogs – 2 tablets / day
large dogs – 3 tablets / day
Mini tablets
cats and small dogs – 1-3 tablets / day
Administer before meals.

Packaging
50 g paste
90 tablets
30 tablets
90 mini tablets

Composition of the paste
Digestive enzymes: amylase, proteases, lactase, cellulase, lipase, soybean oil, brewer's yeast, inulin, essential fatty acids (EFAs)

Composition per tablet
Digestive enzymes: amylase, proteases, lactase, cellulase, lipase, brewer's yeast, inulin

HepaDol®

LIVER PROTECTION AND REGENERATION

- Taurine – protects the liver from fibrosis
- L-methionine and L-carnitine – choleretic effect, prevention of deposits in the bile ducts, detoxification
- Milk thistle (Silybum marianum) – protection of liver cells against toxic agents, cholagogue effect, antioxidant effect
- Phospholipids – digestion of fats, increased absorption of fat-soluble vitamins
- Lecithin – liver detoxification and regeneration, involved in fat digestion
- B vitamins – support of liver processes

Indications

- Support in liver disorders
- Support in disorders of the liver and bile ducts
- Support in digestive disorders
- Supporting the body during therapies that stress the liver
- Support in case of poisoning
- Daily liver support

How to apply

Tablets

dogs and cats:
under 15 kg body weight – 1 tablet / day
15-30 kg body weight – 2 tablets / day
over 30 kg body weight – 3 tablets / day

Mini tablets

1 tablet per 5 kg body weight / day
Administer with a meal.

Packaging

60 tablets
60 mini tablets

Composition per tablet	
Taurine	100 mg
L-Methionine	50 mg
L-Carnitine	5 mg
Phospholipids	70 mg
Milk thistle extract (Silybum marianum)	50 mg
Silymarin	40 mg
Silibinin	15 mg
Vitamin C	30 mg
Vitamin E	12 mg
Vitamin B_{12}	10 µg
Choline chloride	1 mg
Zinc	8 000 µg
Selenium	20 µg

Polyphenols, mannan-oligosaccharides (MOS), B vitamins

Brewer's yeast, lecithin

HepaDol® Max

LIVER PROTECTION AND REGENERATION

- Composition of ingredients, i.e.: phospholipids, silymarin, silibinin, which influence regenerative, supportive and relaxing properties of the liver
- Cynarine – prevents the formation of gallstones, cleanses the liver from toxins
- Curcumin, thymoquinone – natural, powerful antioxidants – supporting the alleviation of inflammation, proper digestion, liver regeneration, cholagogue properties
- Phytosterols – correct blood cholesterol levels, protection of the liver against steatosis

Indications

- Support in liver functioning
- Support in digestive diseases
- Support in liver disorders
- Supporting the body during therapies that stress the liver
- Support in case of intoxication
- Daily liver protection

How to apply

Tablets

dogs and cats:
under 15 kg body weight – 1 tablet / day
15-30 kg body weight – 2 tablets / day
over 30 kg body weight – 3 tablets / day

Mini tablets

1 tablet per 5 kg body weight / day
Administer with a meal.

Packaging

60 tablets
60 mini tablets

Composition per tablet

Phospholipids	70 mg
Silymarin	40 mg
Silibinin	15 mg

Cynarine, curcumin, thymoquinone, phytosterols, oleanolic acid, mannan-oligosaccharides (MOS), methionine, B vitamins

Artichoke extract (Cynara scolymus), milk thistle extract (Silybum marianum) turmeric extract (Curcuma longa), nigella (Nigella sativa), dandelion extract (Taraxacum officinale), green tea extract (Camellia sinensis), brewer's yeast, lecithin

HepaDol® Paste

LIVER PROTECTION AND REGENERATION

- L-arginine – essential amino acid for the synthesis of urea in the ornithine cycle – regeneration of the liver, removal of toxins from the liver
- Taurine – protects the liver from fibrosis
- Milk thistle and artichoke – protect liver cells against toxic substances, antispasmodic properties
- Lecithin – detoxification and regeneration of the liver
- Phospholipids – digestion of fats, increased absorption of fat-soluble vitamins
- Betaine – hepatoprotective, detoxifying effect

Indications

- Support in liver functioning
- Support in liver diseases
- Support in digestive disorders
- Supporting the body during therapies that stress the liver
- Supportive in case of intoxication
- Daily liver support

How to apply

cats and small dogs – 1-2 g / day
medium dogs – 4 g / day
large dogs – 6 g / day
1 teaspoon = 6 g

Administer with a meal.

Packaging

50 g

Composition per 1 kg	
Taurine	50 000 mg
L-Arginine	50 000 mg
Betaine	45 000 mg
Artichoke extract (Cynara scolymus)	50 000 mg
Milk thistle extract (Sylibum marianum)	20 000 mg
Phospholipids	100 000 mg
Silymarin	16 000 mg
Silibinin	6 100 mg
Vitamin B_1	25 mg
Vitamin B_2	63 mg
Vitamin B_6	25 mg
Vitamin B_{12}	500 µg
Niacin	350 mg
Pantothenic acid	250 mg
Folic acid	10.5 mg
Biotin	10 000 µg
Choline chloride	510 mg

Cynarin, oleanolic acid, phytosterols
Soybean oil, lecithin, brewer's yeast

LintOff Paste®

ANTI-HAIRBALL PASTE

- Reduced formation of hairballs in the digestive tract
- Proper passage and excretion of hair from the digestive tract

Indications

- Prevention of hairball formation in the digestive tract
- Accumulation of hairballs in the digestive tract
- Constipation, bowel movement problems
- Cats with long, dense coat

How to apply

in the presence of hairballs – 4-6 cm of paste / day
reduction of hairball formation – 4-6 cm of paste
2-3 times / week
1 cm = 0.5 g

Packaging

100 g

Composition per 1 kg

Malt, molasses, soybean oil, dextrose monohydrate, fish oil

UrinaryMet® Paste
UrinaryMet®

URINE ACIDITY REGULATOR

- Urinary acidification
- Supporting the functioning of the urinary system
- Protection of the urinary tract from harmful microorganisms

Indications
- Recurring problems of the lower urinary tract
- Support in the formation of struvite stones (ammonium-magnesium phosphate stones)
- Support in lower urinary tract infections

How to apply
Paste
cats and small dogs – 1-2 g / day
medium dogs – 4 g / day
large dogs – 6 g / day
1 teaspoon = 6 g
Tablets
small dogs – 1 tablet / day
medium dogs – 2 tablets / day
large dogs – 3 tablets / day
Mini tablets
cats and small dogs – 1-2 tablets / day

Administer with a meal.

100 g paste
60 tablets
60 mini tablets

Composition per 1 kg of paste	
L-Methionine	252 mg

Soybean oil, brewer's yeast, cranberry (Vaccinium macrocarpon), fish oil

Composition per tablet	
L-Methionine	500 mg

Composition per mini tablet	
L-Methionine	250 mg

UrinoDol®

NATURAL SUPPORT OF URINARY TRACT

- Cranberry – elimination of harmful microorganisms from the urinary tract
- Parsley – diuretic effect – removal of toxins from the urinary tract
- Hyaluronic acid – formation of protective layer of bladder mucosa
- Glucosamine – sealing the bladder wall

Indications

- Support in urinary tract disorders
- Support in infections of the lower urinary tract

How to apply

Tablets

1 tablet per 20 kg of body weight / day

Mini tablets

cats and small dogs – 1-2 tablets / day

Packaging

60 tablets

Composition per tablet

Glucosamine	100 mg
Hyaluronic acid	5 mg

Cranberry (Vaccinum macrocarpon), parsley (Petroselinum crispum), brewer's yeast

Composition per mini tablet

Glucosamine	60 mg
Tryptophan	50 mg
Hyaluronic acid	5 mg

Cranberry (Vaccinum macrocarpon), parsley (Petroselinum crispum), brewer's yeast

Dolvit® **Kalium**

POTASSIUM DIETARY SUPPLEMENT

- Source of highly absorbable potassium
- Proper functioning of the kidneys, muscles, heart, and nervous system
- Support for optimal electrolyte balance
- Maintain proper urine pH

Indications

- Supplemention of the daily diet during periods of increased potassium requirements
- Supportive in formation of oxalate stones
- Support in renal failure
- Urine alkalization

How to apply

1 measure (1 g) per 5 kg body weight twice a day
Administer with a meal.

Formula can be dissolved in water before administration.
It is recommended to consult a veterinarian before use.

Packaging

60 g

Composition per 1 g

Potassium	100 mg
Magnesium	10 mg
Vitamin B_6	1 200 µg

Potassium citrate, maltodextrin, inulin, magnesium citrate

ChitoFos® Paste
ChitoFos®

SUPPORT OF RENAL FUNCTION

- Chitosan – building block of marine crustaceans – removal of harmful uremic toxins from the body
- Calcium carbonate – binding and limiting excess phosphorus in the body
- Vitamin D_3 – supplementation of deficiencies that may arise with renal insufficiency

Indications
- Support in kidney disorders
- Support in chronic renal insufficiency
- Reduction in the phosphorus supply in the body

How to apply
Paste
6 g per 20 kg body weight / day
1 teaspoon = 6 g
The amount can be divided into 2 servings by administering it twice a day.

Powder
1 measure (1 g) per 5 kg body weight twice a day
Formula should be mixed with wet food.

Tablets
1 tablet per 10 kg body weight twice a day
Administer with a meal.

Packaging
50 g paste
60 tablets
150 g
60 g

Composition per 1 kg of paste	
Chitosan	106 g
Vitamin D_3	33 500 IU

Soybean oil, calcium carbonate, brewer's yeast

Composition per 1 kg of powder	
Chitosan	90 g
Vitamin D_3	25 000 IU

Lactose, calcium carbonate

Composition per tablet	
Chitosan	180 mg
Vitamin D_3	50 IU

Brewer's yeast, calcium carbonate

LespeDol®

DIURETIC EFFECT

- Lespedeza – strong diuretic effect, regulates urea concentration in the blood, flushes out toxins
- Orthosiphon – supports diuresis and alleviates inflammation of the urinary tract, neutralizes free radicals

Indications
- Support in kidney dysfunction
- Difficulty urinating
- Support in uremia
- Supportive treatment for kidney stones and bacterial urinary tract infections

How to apply
Tablets
dogs – 1 tablet per 10 kg body weight / day
Mini tablets
dogs and cats – 1 tablet per 3 kg body weight / day

Packaging
40 tablets
60 mini tablets

Composition
Flavonoids, polyphenols, saponins, tannins
Lespedeza capitata, Orthosiphon Aristatus, brewer's yeast, maltodextrin

ProstaDol®

SUPPORT OF PROSTATE FUNCTION

- Beta-sitosterols – support of epithelial cells, regeneration of the prostate gland, proper prostate functioning
- Plant-derived active substances – beneficial effects on the functioning of the urinary tract
- Vitamin E, zinc, manganese, selenium – protection of prostate and genitourinary cells from free radicals and changes caused by aging processes

Indications

- Prostate hypertrophy
- Supportive in urinary disorders
- Supportive in prostatitis
- Support in prostate cancer therapy
- Old age

How to apply

1 tablet per 20 kg body weight / day

Packaging

90 tablets

Composition per tablet	
Vitamin E	2 500 µg
Manganese	2 000 µg
Zinc	8 000 µg
Selenium	45 µg

Beta – plant sitosterols, phytosterols, omega 6 acids, L-glutamine, cucurbitacin

Pumpkin seed (Cucurbita pepo), cranberry (Vaccinium macrocarpon), nettle extract (Urtica dioica)

HemoDol®

ANAEMIA

- Highly bioavailable iron – production of red blood cells and haemoglobin, proper oxygen transport in the body
- B vitamins – support of haematopoietic processes
- Vitamin C – increase in iron bioavailability
- Copper – proper iron transport in the body

Indications

- Anaemia
- Support in babesiosis and haemoplasmosis

How to apply

Tablets

1 tablet per 10 kg body weight twice a day

Mini tablets

1 tablet per 3 kg body weight twice a day

It is recommended to consult a veterinarian before administration.

Packaging

90 tablets
60 mini tablets

Composition per tablet	
Iron	10 000 µg
of which from chelate	3 000 µg
Copper	1 000 µg
Zinc	10 000 µg
Vitamin C	30 mg
Vitamin K	250 µg
Vitamin B_1	1 500 µg
Vitamin B_2	1 500 µg
Vitamin B_6	1 200 µg
Vitamin B_{12}	15 µg
Niacin	3 000 µg
Pantothenic acid	1 200 µg
Folic acid	5 000 µg

CardioDol®

CARDIAC SUPPORT

- Heart-protective formula in the form of syrup
- L-carnitine – essential substance for the production of energy, needed for proper heart function, antioxidant properties
- L-arginine – seals blood vessels, prevents platelet aggregation, regulates blood pressure
- Taurine – correct heart rhythm, strengthening of cardiac muscle contractions
- Selenium – protection of the heart against oxidative stress

Indications

- Support in cardiovascular disorders
- Support in the treatment of heart diseases

How to apply

dogs and cats:
under 5 kg body weight – 2.5 ml twice a day
5-15 kg body weight – 5 ml twice a day
15-30 kg body weight – 10 ml twice a day
over 30 kg body weight – 15 ml twice a day

Packaging

250 ml

Composition per 5 ml	
L-Carnitine	500 mg
L-Arginine	100 mg
Taurine	100 mg
Beta carotene	10 µg
Selenium	30 µg

Magnesium lactate, potassium chloride
