

DOLFOS[®]

PETS

principle of proper nutrition

Formulas for rodents, rabbits and reptiles

RodeVit® Multi

VITAMINS, MINERALS, AMINO ACIDS for rodents and rabbits

Properties

RodeVit Multi contains a set of vitamins, micro and macroelements, amino acids, as well as omega-3 and omega-6 fatty acids. The ingredients of the formula complete mineral and vitamin deficiencies, increase the condition, and improve the density and quality of the coat. Regular application strengthens the body and contributes to maintaining the animal in optimal shape.

Instructions for use

Rabbits: 2-3 scoops (8-12g) daily with food

Guinea pigs, hamsters and other small rodents: 0.5-1 scoops (2-4g) per day with food

If necessary, the mixture can be administered in slurry form using a syringe or a spoon. For this purpose, mix the powder with water in the ratio 1:2 (1 measure of powder to 2 measures of water) or in a larger amount of water.

Packaging

150 g

Composition per 1 kg

Vitamin A	240 000 IU
Vitamin D ₃	180 000 IU
Vitamin E	1 104 mg
Vitamin K ₃	30 mg
Vitamin C	1 000 mg
Vitamin B ₁	39,6 mg
Vitamin B ₂	120 mg
Vitamin B ₆	47 mg
Vitamin B ₁₂	300 µg
Niacin	625 mg
Pantothenic acid	31,1 mg
Folic acid	15,5 mg
Biotin	1 500 µg
Choline chloride	3,53 g
Iron	1 180 mg
Manganese	570 mg
Copper	162 mg
Zinc	1 385 mg
Iodine	1,2 mg
Selenium	1,2 mg
Lysine	20 g
Methionine	4 g
Threonine	10 g
Cystine	1 g
Tryptophan	3 g
Valine	5 g
Magnesium	11 g
Calcium	33 g
Phosphorus	11 g
Sodium	1,5 g

Linseed flour, brewer's yeast, oyster shell calcium carbonate, calcium and magnesium carbonate, dicalcium phosphate

RodeVit[®] Multi drink

VITAMINS AND MINERALS for rodents and rabbits (water-soluble)

Properties

RodeVit Multi drink is a water-soluble vitamin and mineral complex. The liquid form of the formula ensures rapid absorption. The ingredients supplement vitamin and mineral deficiencies, improve the condition and health of animals, and enhance the quality of coat.

Instructions for use

1 measuring scoop (0.7g) per 25 ml of water

The formula should be dissolved in drinking water and poured into a drinker or bowl. The animal will absorb the necessary amount of vitamins and minerals along with the water.

Packaging

60 g

Composition per 1 kg

Vitamin A	2 750 IU
Vitamin D ₃	22 500 IU
Vitamin E	800 mg
Vitamin K ₃	25 mg
Vitamin B ₁	98 mg
Vitamin B ₂	120 mg
Vitamin B ₆	156 mg
Vitamin B ₁₂	1 440 µg
Niacin	458 mg
Pantothenic acid	280 mg
Folic acid	28,5 mg
Biotin	6 000 µg
Copper	725 mg
Iodine	3,8 mg
Selenium	2,3 mg
Potassium	95 mg

RodeVit[®] C drink

VITAMIN C for guinea pigs (water-soluble)

Properties

Guinea pigs do not have the ability to synthesize vitamin C in their bodies. **RodeVit C** water-soluble drink covers the guinea pigs' daily requirement of vitamin C and thus helps avoid the consequences of vitamin C deficiency.

Instructions for use

1 measuring scoop (0.7g) per 50 ml of water

The formula should be dissolved in drinking water and poured into a drinker or bowl. Due to rapid oxidation of vitamin C, water should be changed daily.

Packaging

60 g

Composition per 1 kg

Vitamin C	7 150 mg

RodeVit® Gastro

PROPER DIGESTION
ENHANCED IMMUNITY

Properties

RodeVit Gastro is recommended in case of digestive problems and decreased immunity. The ingredients of the product: probiotic, prebiotics and a mixture of herbs regulate the digestive processes and increase immunity.

Instructions for use

Rabbits: 2-3 scoops (4-6g) daily with food

Guinea pigs, hamsters, rats and other small rodents: 0.5-1 scoop (1-2g) daily with food

The product comes in powder form so that it can be given after coating a moist fruit or vegetable in it. If necessary, the formula can be administered in the form of a slurry using a syringe or a teaspoon. To do this, mix the powder with water in a ratio of 1:2 (1 scoop of powder to 2 scoops of water) or in a larger amount of water.

Packaging

60 g

Composition per 1 kg

Probiotic - 4b 1702 <i>Saccharomyces cerevisiae</i> (CNCM I-4407) 10×10^{11} CFU	
Beta-1,3/1,6-glucan	53 360 mg

Linseed flour, brewer's yeast, pectin, inulin, *Pimpinella anisum* anise seed, plant processing products: *Melissa officinalis* extract, *Boswellia serrata* extract, *Origanum vulgare* oregano extract, *Thymus vulgaris* thyme extract, *Salvia rosmarinus* rosemary extract, *Echinacea purpurea* extract, *Salvia officinalis* sage extract, diatomaceous earth, mannanoligosaccharides (MOS), fructooligosaccharides (FOS), omega-3 and omega-6 fatty acids, flavonoids, polyphenols

Analytical constituents: Crude protein 16,8%, Fibre 3,8%, Crude oils and fats 1,9%, Crude ash 39%, Calcium 3,1%, Sodium 0,04%, Phosphorus 0,2%

RodeVit[®] Carcifin

IMMUNE SUPPORT SUPPORT IN ANTICANCER THERAPY

Properties

RodeVit Carcifin is a composition of ingredients that support the functioning of the immune system, have a strong antioxidant effect, strengthen the condition and inhibit the breakdown of proteins. Supplementation of the diet with the ingredients of the formula is a valuable help during the fight against cancer.

Instructions for use

Rabbits: 2-4 scoops (1-2g) daily with food

Rats, guinea pigs, hamsters and other small rodents: 1-2 scoops (0.5-1g) daily with food

If necessary, the formula can be given in slurry form using a syringe or a teaspoon. To do this, mix the powder with water in a ratio of 1:2 (1 scoop of powder to 2 scoops of water) or in more water.

Packaging

60 g

Composition per 1 kg

Vitamin A	1 330 000 IU
Vitamin D ₃	132 000 IU
Vitamin E	12 000 mg
Vitamin K	260 mg
Vitamin C	40 000 mg
Zinc	2 000 mg
Selenium	40 mg
Beta-1,3/1,6-glucan	72 500 mg
HMB	60 000 mg
Quercetin	45 000 mg
CLA	32 000 mg

Linseed flour, brewer's yeast, 3-hydroxy-3-methylbutyrate calcium salt, conjugated linoleic acid, plant processing products: *Sophora japonica* tree extract, *Urtica dioica* nettle extract, *Taraxacum officinale* dandelion extract, *Nigella sativa* nigella extract, *Rosa canina* rosehip extract, *Camellia sinensis* green tea extract (theanine), *Thymus vulgaris* thyme extract, *Echinacea purpurea* extract, capsicum annuum (capsaicin), omega-3 and omega-6 acids, flavonoids, polyphenols

Analytical constituents: Crude protein 21,2%, Crude oils and fats 4,2%, Crude fibre 3%, Crude Ash 1,8%

RodeVit® HepaUro

SUPPORT OF THE URINARY SYSTEM LIVER PROTECTION AND REGENERATION

Properties

RodeVit HepaUro is a composition of ingredients that support the functioning of the urinary system and liver function, contribute to the removal of toxins and microorganisms from the body, and have diuretic properties. Supplementation of the diet with the ingredients of the formula is a valuable help in case of problems with kidneys, lower urinary tract and liver insufficiency.

Instructions for use

Rabbits: 2-4 scoops (1-2g) daily with food

Guinea pigs, hamsters, rats and other small rodents: 1-2 scoops (0.5-1g) daily with food

If necessary, the formula can be administered in slurry form using a syringe or spoon. To do this, mix the powder with water in a ratio of 1:2 (1 scoop of powder to 2 scoops of water) or in more water.

Packaging

60 g

Composition per 1 kg

L-Methionine	40 000 mg
Vitamin C	10 000 mg
Choline chloride	4 000 µg

Linseed flour, chitosan, *Pimpinella anisum* anise seed, plant processing products: *Vaccinium macrocarpo* cranberry extract, *Petroselinum crispum* parsley extract, *Urtica dioica* nettle extract, *Taraxacum officinale* dandelion extract, *Rosa canina* rosehip extract, *Camellia sinensis* green tea extract (theanine), *Silybum marianum* L. Gaertner thistle extract (silymarin), *Crithmum maritimum* L. sea fennel extract, diatomaceous earth, brewer's yeast, lecithin (phospholipids), inulin, polyphenols, flavonoids

Analytical constituents: Crude protein 29,3%, Crude oils and fats 5%, Crude fibre 7,6%, Ash 11,4%

RodeVit[®] Respiro

SUPPORT OF THE RESPIRATORY SYSTEM

Properties

RodeVit Respiro is a composition of ingredients that support functioning of the respiratory system. They support and soothe cough, cold and other respiratory system disorders. They help in dilution and expulsion of the accumulated secretion from the respiratory tract, facilitating breathing.

Instructions for use

Rabbits: 2-4 scoops (1-2g) daily with food

Rats, guinea pigs, hamsters and other small rodents: 1-2 scoops (0.5-1g) daily with food

If necessary, the mixture can be administered in slurry form using a syringe or spoon. To do this, mix the powder with water in a ratio of 1:2 (1 scoop of powder to 2 scoops of water) or in more water.

Packaging

40 g

Composition per 1 kg

Vitamin C	15 000 mg
-----------	-----------

Linseed flour, *Pimpinella anisum* anise seed, *Trigonella foenum-graecum* fenugreek seed, plant processing products: *Thymus vulgaris* extract, *Taraxacum officinale* dandelion extract, *Althaea officinalis* marshmallow extract, *Pini gemmae* pine needle buds extract, *Rosa canina* wild rose extract, *Echinacea purpurea* extract, *Nigella sativa* extract, brewer's yeast, beta-1,3/1,6-glucan, mannanoligosaccharides (MOS)

Analytical constituents: Crude protein 29%, Crude oils and fats 3,9%, Crude fibre 5,5%, Crude ash 4,9%

RodeVit[®] Help

RESCUE FEED for rabbits and herbivorous rodents

Properties

RodeVit Help is a rescue food designed for temporary feeding of companion herbivores (rodents, rabbits) as a support during loss of appetite, after surgery, and during convalescence.

Instructions for use

At least 3 scoops of powder (10g) per 1kg body weight per day. The daily portion should be divided into approximately 3-5 feedings.

The product should be administered in slurry form using a syringe or teaspoon. For this purpose, mix the powder with water in the ratio 1:2 (1 scoop of powder to 2 scoops of water) or in a larger amount of water (the consistency depends on the animal's individual needs).

Packaging

100 g

Composition per 1 kg

Vitamin C	4 000 mg
Vitamin D ₃	2 000 IU

Dried alfalfa, wheat bran, linseed flour, corn flour, spirulina, *Trigonella foenum-graecum* fenugreek seed, *Pimpinella anisum* anise seed, wheat flour, plant processing products: *Origanum vulgare* oregano extract, *Salvia rosmarinus* rosemary extract, *Urtica dioica* nettle extract, *Rosa canina* rosehip extract, brewer's yeast, inulin, beta-1,3/1,6-glucan, mannooligosaccharides (MOS), fructooligosaccharides (FOS), omega-3 and omega-6 acids

Analytical constituents: Crude protein 19%, Fibre 20,9%, Crude oils and fats 4,4%, Crude ash 6,4%

Dolvit® Power

RESCUE FEED for rodents and omnivorous reptiles and hedgehogs

Properties

Dolvit Power is a rescue feed for temporary feeding of small omnivorous companion animals (rats, hamsters, mice, gerbils, hedgehogs, reptiles) as a support during loss of appetite, after surgery, and during convalescence. It is an excellent source of protein and fat and improves the food palatability.

Instructions for use

At least 1 scoop of powder (2.5g) per 150g of body weight per day.

The daily portion should be divided into approximately 3-5 feedings.

The product should be administered in slurry form using a syringe or teaspoon. For this purpose, mix the powder with water in the ratio 1:2 (1 scoop of powder to 2 scoops of water) or in a larger amount of water (the consistency depends on the animal's individual needs).

Packaging

100 g

Composition per 1 kg

Vitamin C	4 000 mg
Vitamin D ₃	2 000 IU

Insect flour, linseed flour, spirulina, wheat bran, corn flour, *Trigonella foenum-graecum* fenugreek seed, *Pimpinella anisum* anise seed, eggshell calcium carbonate, brewer's yeast, plant processing products: *Origanum vulgare* oregano extract, *Salvia rosmarinus* rosemary extract, *Urtica dioica* nettle extract, *Rosa canina* rosehip extract, inulin, beta-1,3/1,6-glucan, mannanoligosaccharides (MOS), fructooligosaccharides (FOS), omega-3 and omega-6

Analytical constituents: Crude protein 35,5%, Oils and fats and fats 16,5%, Crude fibre 4,2%, Ash 6,8%

ReptiVit

VITAMINS, MINERALS, AMINO ACIDS for reptiles and amphibians

Properties

ReptiVit is a complementary feed for reptiles and amphibians, which includes a carefully selected set of vitamins, amino acids, macro- and micronutrients.

The components of the mixture have a beneficial effect on the growth of young animals, increase their natural immunity, reduce the effects of undesirable nutritional factors. They stimulate appetite and support the natural moulting process.

Regular administration of ReptiVit contributes to a significant improvement of the animals' condition.

Instructions for use

2-3 measures per 100 g of food after thorough mixing

Packaging

100 g

Composition per 1 kg

Vitamin A	8 000 000 IU
Vitamin D ₃	200 000 IU
Vitamin E	6 500 mg
Vitamin K ₃	1 300 mg
Vitamin B ₁	700 mg
Vitamin B ₂	3 000 mg
Vitamin B ₆	500 mg
Vitamin B ₁₂	3 500 µg
Biotin	7 000 µg
Niacin	900 mg
Pantothenic acid	3 000 mg
Folic acid	150 mg
Vitamin C	16 000 mg
Choline chloride	3 000 mg
Iron	500 mg
Manganese	200 mg
Copper	3,3 mg
Zinc	200 mg
Iodine	5 mg
Selenium	1 mg
Lysine	22 g
Methionine	7,5 g

Brewer's yeast, dicalcium phosphate, sodium chloride, calcium carbonate calcium, magnesium oxide

Analytical constituents: Crude protein 32.6%, Crude fibre 7.4%, Crude oils and fats 0.1%, Crude ash 7.8%, Calcium 4%, Sodium 1.8%, Phosphorus 3%, Magnesium 1%

ReptilCal

SOURCE OF CALCIUM for reptiles in powder

Properties

ReptilCal is a complementary feed for reptiles that contains easily absorbable calcium.

Instructions for use

The insects should be placed in a box of ReptilCal, coated with the formula and administered to the animal.

Packaging
