DOLFOS PETS is a Polish company, founded by veterinarians, developing a comprehensive range of formulas for companion animals. We have been present on the market for many years, offering top quality products, elaborated in cooperation with specialists in animal nutrition, veterinarians and technologists.

Pets are members of our family and their well-being is our priority.

The products we offer are manufactured from scratch in our company located in the centre of Poland. Raw materials, which undergo detailed verification in our laboratory, are obtained from renowned suppliers. For the production of our formulas we use safe ingredients with effectiveness confirmed by scientific research, which guarantees their maximum absorption.

Our production and distribution processes are improving systematically. We pay particular attention to the needs and signals from our customers, treating them as one of the policy elements that help us to develop, improve and modernise the company and its products.

In this catalogue, you will find a wide range of formulas that pet owners around the world associate with addressing the nutritional and health problems of their four-legged friends.

We want your friend to be healthy and happy so that you can enjoy their company for as long as possible.

Dolmilk® Puppy

MILK REPLACER FOR PUPPIES

- Milk-derived protein only
- Perfectly absorbable fat in the form of microparticles
- Lactose at a safe level
- Essential vitamins, minerals and amino acids for proper development
- Covers the nutritional requirements of puppies of all breeds

Indications

- Too numerous litter
- Rejection of the litter or death of the mother
- Shortage of the mother's milk
- Complementary feeding and covering of nutritional shortages in puppies
- Feeding of adult and senior dogs

How to apply

Dolmilk® Puppy should be dissolved in warm boiled water in the ratio 1:2 (1 measure of the formula per 2 measure of water). Ready milk should be applied with a bottle and a nipple.

Packaging

Dolvit® Junior

FOR PUPPIES AND YOUNG DOGS

- Highly bioavailable vitamins and minerals
- Proper development of the organism
- Improvement of vital processes
- Strengthening of general shape
- Positive effects on the coat
- Harmonious development of the skeletal system

Indications

- Supplementation of mineral and vitamin deficiencies in puppies and young dogs
- Prevention of developmental abnormalities
- Home-feeding or poorly balanced meals
- Strengthening puppies during growth starting on the 3rd week of life

How to apply

Powder: 1 measure (5 g) per 10-20 kg body weight / day

Tablets: 1 tablet per 10 kg body weight / day

Mini tablets: 1 tablet per 3 kg body weight / day

Dicalcium phosphate, brewer's yeast, calcium carbonate from oyster shells, calcium lactate, magnesium oxide, magnesium lactate, antioxidants

Dolvit[®] Junior Plus

FOR PUPPIES AND YOUNG DOGS

- Sea algae and oyster shells – highly absorbable, natural sources of minerals, mainly calcium and magnesium – for correct development of the organism
- Vitamins, amino acids and minerals with high bioavailability
- Natural immune factors – beta-1,3/1,6-glucans, mannan-oligosaccharides – high health benefits
- Tocopherols – powerful antioxidants – protection against oxidative stress

Indications

- Supplementation of mineral and vitamin deficiencies in puppies and young dogs
- Prevention of developmental abnormalities
- Poor shape
- Home-feeding or poorly balanced meals
- Strengthening puppies during growth starting on the 3rd week of life

Dicalcium phosphate, brewer's yeast, calcium carbonate from oyster shells, calcium lactate, magnesium oxide, red marine algae (lithothamne), magnesium lactate

Multical®

FOR DOGS OF ALL AGES

- Well-selected vitamins and minerals in terms of quantity and proportion
- Proper development and functioning of the organism
- Strengthening of overall shape
- Improved coat quality
- Strengthening of the skeletal system

Indications

- Complementation of mineral and vitamin deficiencies for dogs of all breeds and ages
- Home-feeding or poorly balanced meals
- Periods of increased demand – pregnancy, nursing, stressful situations, reduced immunity

How to apply

Powder: 1 measure (5 g) per 10-20 kg body weight / day

Tablets: 1 tablet per 10 kg body weight / day

Mini tablets: 1 tablet per 3 kg body weight / day

If applied to pregnant and nursing females, the dose can be doubled.

Dolvit® Senior PLUS

FOR MATURE DOGS

- Full set of vitamins, amino acids and minerals – for the proper functioning of the mature organism
- Glucosamine – joint protection against age-related degeneration
- Ginseng root extract – vitality and strength
- Cranberry extract – urinary tract protection
- Tocopherols, capsaicin – powerful antioxidants – protection against oxidative stress – slows down ageing processes
- Strengthening immunity
- Better shape, more energy

Indications

- Mature and ageing dogs
- Reluctance to exercise, weakness, slowing down
- Convalescence
- Home-feeding or poorly balanced food

Lysine 14mg, Methionine + Cystine 4.7mg, Threonine 10mg, Tryptophan 2.6mg, Valine 12mg, Arginine 29mg, Tyrosine 6mg, capsaicin, flavonoids, polyphenols

Brewer's yeast, calcium carbonate from oyster shells, magnesium oxide, cranberry extract (Vaccinium macrocarpon), paprika extract (Capsicum annum), calcium lactate, magnesium lactate, antioxidants

GeriaDol®

FOR ELDERLY, GERIATRIC DOGS

- Set of vitamins, amino acids and minerals – supports functioning of all organs
- Set of active substances derived from plant extracts e.g. quercetin, curcumin, polyphenols – alleviation of troublesome symptoms associated with advanced age
- Glucosamine – joint strengthening
- Natural immunity booster, e.g. beta-1,3/1,6-glucans, mannan-oligosaccharides
- HMB, CLA, L-arginine, ginseng root extract – better shape, more energy, strong muscles
- Omega-3 and omega-6 acids, lecithin – support the nervous system
- Improved quality of life

Indications

- Elderly, geriatric dogs
- Weakness, apathy, reluctance to move, dementia
- Degenerative changes
- Support of the body in disorders resulting from advanced age
- Supplementation of the daily diet

β-Hydroxy β-methylbutyric acid (HMB), conjugated linoleic acid (CLA), brewer's yeast, calcium carbonate from oyster shell, magnesium oxide, red marine algae (lithothamne), fish oil, cranberry extract, ginseng root extract, paprika extract, Japanese pearl plant extract, Curcuma longa extract, nettle extract, dandelion extract, rosehip extract, purple coneflower extract, lecithin, magnesium lactate, calcium lactate, antioxidants

Dolvit[®]

Calcium phosphate A D₃ E

FOR DOGS OF ALL AGES

- Calcium and phosphorus in highly bioavailable forms
 - proper development of bones and teeth
- Vitamin A – strengthens immunity, correct growth and development of young dogs
- Vitamin D₃ – regulation of phosphorus and calcium metabolism, anti-rickets effect
- Strengthening of the skeletal system
- Healthy skin and shiny coat

Indications

- Mineral and vitamin supplementation
- Periods of increased demand: pregnancy, nursing, intensive growth
- Convalescence after orthopaedic injuries

How to apply

Powder: 1 measure (5 g) per 10 kg body weight / day

Tablets: 1 tablet per 5 kg body weight / day

Mini tablets: 1 tablet per 2 kg body weight / day

If applied to pregnant and nursing females, the dose can be doubled.

Phosphorus	150 mg
Magnesium	40 mg
Sodium	12 mg

Dicalcium phosphate, brewer's yeast, calcium carbonate from oyster shells, calcium lactate, magnesium oxide, magnesium lactate, antioxidants

Vetcal® D₃

SUPPLEMENT WITHOUT PHOSPHORUS

- Oyster shells, calcium lactate – sources of calcium with high bioavailability – balances calcium deficiency in the body
- Vitamin D₃+K complex – improves calcium absorption
- Correct mineralisation, bone and tooth formation
- Proper functioning of the nervous, endocrine and muscular systems

Indications

- Supplementation of mineral and vitamin deficiencies for animals fed a traditional diet, where there is a high amount of phosphorus in the feed.

Calcium carbonate from oyster shells, calcium lactate, brewer's yeast, magnesium oxide

Multivital® Cat

FOR CATS OF ALL AGES

- Vitamins, minerals and amino acids carefully selected in terms of quantity and proportion, including taurine that is highly beneficial for cats
- Proper development and functioning of the body
- Improved coat quality
- Strengthening of the skeletal system
- Full body strength and joy of life

Indications

- Complementation of mineral-vitamin-amino acid deficiencies in cats of all breeds, ages
- Intensive growth and development of young cats
- Home-feeding or poorly balanced food
- Periods of increased demand – mating, pregnancy, nursing, stressful situations, exhibitions, reduced immunity

Taurine	103 mg
Natural tocopherols extract	1 mg
Glucosamine	70 mg
Beta-1,3/1,6-glucan	15 mg

Mannan-oligosaccharides (MOS), ginsenosides, capsaicin, curcumin, quercetin, omega-3 and omega-6 acids, choline, phospholipids, flavonoids, polyphenols

β-Hydroxy β-methylbutyric acid (HMB), conjugated linoleic acid (CLA), brewer's yeast, calcium carbonate from oyster shells, magnesium oxide, red marine algae (lithothamne), fish oil, cranberry extract, ginseng root extract, paprika extract, Japanese pearl plant extract, Curcuma longa extract, nettle extract, dandelion extract, rosehip extract, purple coneflower extract, lecithin, magnesium lactate, calcium lactate

Dolvit[®] Lysine Cat

Composition per 1 kg

L-Lysine monohydrochloride	715 g
----------------------------	-------

Beta glucans, mannan-oligosaccharides (MOS), thymol, carvacrol, flavonoids

Brewer's yeast, thyme extract (Thymus vulgaris)

IMMUNITY BOOST

- Strengthening the immune system of cats and kittens
- Improving general condition and well-being
- Supporting the proper functioning of the upper respiratory, nervous and circulatory systems
- Support for the eyes
- Stimulating production of antibodies, enzymes and hormones
- Supporting the multiplication of beneficial intestinal microflora
- Neutralisation of freeradicals

Indications

- Reduced immunity of cats and kittens
- Body weakness
- Contact with other cats
- Stressful situations
- Excessive secretion from the eyes and nose

How to apply

kittens – 0.5 measure (0.35 g) twice a day

adult cats – 1 measure (0.7 g) twice a day

The formula should be administered with a meal.

It is recommended to seek veterinary advice before use.

Packaging

70 g

Dolvit® Biotin

HEALTHY SKIN AND SHINY COAT

- Biotin, amino acids, zinc, B vitamins
- Diatomite – a source of highly absorbable silicon – hair-building material
- Correct development and formation of the coat
- Hair growth stimulation
- Increase in density, fluffiness and shine of the coat
- Hair loss prevention
- Strengthening of hair and claws
- Healthy, well-moisturised, flexible skin

Indications

- Dull coat
- Excessive skin exfoliation
- Dry skin
- Excessive sebum production
- Increased hair breakage
- Increased hair loss
- Prolonged periods of shedding
- Period after nursing puppies

How to apply

Powder: 1 measure (2.5 g) per 10 kg body weight / day

Tablets: 1 tablet per 10 kg body weight / day

Mini tablets: 1 tablet per 3 kg body weight / day

In case of severe hair loss and permanent dull hair, doubling the quantity is recommended.

Packaging

90 tablets
90 mini tablets
800 g tablets
300 g
1 kg

Composition per tablet

Biotin	640 µg
Zinc	5 000 µg
L-Methionine	18 000 µg
Vitamin B ₁	10 µg
Vitamin B ₂	11 µg
Vitamin B ₆	20 µg
Vitamin B ₁₂	0.03 µg
Niacin	500 µg
Pantothenic acid	28 µg
Folic acid	14 µg
Choline chloride	2 300 µg
Iron	250 µg
Silicon	32 mg
Sulphur	5.3 mg
Lysine	26 mg
Methionine + Cystine	20 mg
Threonine	17 mg
Tryptophan	3.7 mg
Valine	17 mg
Tyrosine	32 mg

Brewer's yeast, diatomaceous earth (diatomite), antioxidants

Dolvit® Biotin Cat

HEALTHY SKIN AND SHINY COAT

- Biotin, amino acids, zinc, B vitamins
- Diatomite – a source of highly absorbable silicon – hair-building material
- Correct development and formation of the hair coat
- Hair growth stimulation
- Increase in density, fluffiness and shine of the coat
- Hair loss prevention
- Strengthening of hair and claws
- Healthy, well-moisturised, flexible skin

Indications

- Dull coat
- Excessive skin exfoliation
- Dry skin
- Excessive sebum production
- Increased hair breakage
- Increased hair loss
- Prolonged periods of shedding
- Period after nursing

How to apply

1 tablet per 3 kg body weight / day

In case of severe hair loss and permanent dull hair, doubling the quantity is recommended.

Packaging

90 mini tablets

Composition per tablet

Biotin	500 µg
Zinc	6 600 µg
L-Methionine	12 500 µg
Vitamin B ₂	300 µg
Vitamin B ₆	70 µg
Niacin	3 000 µg
Pantothenic acid	600 µg
Choline chloride	600 µg
Copper	825 µg
Selenium	10 µg
Silicon	10 mg
Sulphur	3 mg
Methionine + Cystine	13.2 mg
Lysine	7 mg
Threonine	4 mg
Tryptophan	1 mg
Valine	4.5 mg
Tyrosine	0.8 mg

Brewer's yeast, diatomaceous earth (diatomite), antioxidants

Omega Biotin Paste

HEALTHY SKIN AND SHINY COAT

- Biotin, amino acids, zinc, B vitamins
- Essential fatty acids (EFAs)
- Diatomite – source of highly bioavailable silicon – building-block of hair
- Supporting skin functions
- Healthy, properly moisturised, supple skin
- Proper development and formation of the coat
- Increase in density, fluffiness and shine of the coat
- Hair loss prevention
- Strengthening of hair and claws

Indications

- Support in dermatoses
- Increased hair loss
- Support with skin allergies
- Dry skin
- Excessive skin exfoliation
- Excessive sebum production
- Dull coat
- Increased hair brittleness
- Shedding period
- Period after feeding and nursing

How to apply

cats and small dogs – 1-2 g / day
 medium dogs – 3-4 g / day
 large dogs – 5-6 g / day
 1 teaspoon = 6 g

Packaging

100 g

Composition per 1 kg

Biotin	217 000 µg
Gamma-linolenic acid (GLA)	18 000 mg
Linoleic acid (LA)	254 000 mg
Eicosapentaenoic acid (EPA)	5 400 mg
Docosahexaenoic acid (DHA)	3 600 mg
Alpha-linolenic acid (ALA)	41 000 mg
Vitamin C	1 000 mg
Vitamin E (DL- α-Tocopherol)	1 000 mg
Pantothenic acid	67.4 mg
Zinc	1 667 mg
Selenium	3.33 mg
L-Methionine	3 000 mg
Silicon	1.6 g
Sulphur	1 g

Phospholipids, omega-3 and omega-6, beta-1,3/1,6-glucan

Borage oil, brewer's yeast, lecithin, fish oil, linseed oil, diatomaceous earth (diatomite), tocopherol extracts from vegetable oils, antioxidants

Dolvit® Beta carotene & biotin Forte

HEALTHY SKIN AND SHINY COAT

- Beta carotene (provitamin A) – deepening of hair colour, proper skin pigmentation, improvement of eyesight
- Biotin, amino acids, zinc, B vitamins
- Diatomite – source of highly absorbable silicon – building-block of hair
- Correct development and formation of the coat
- Hair growth stimulation
- Increase in density, fluffiness and shine of the coat
- Hair loss prevention
- Strengthening of hair and claws
- Healthy, well-moisturised, flexible skin

Indications

- Long-haired breeds
- Dull coat
- Dry skin
- Excessive skin exfoliation
- Excessive sebum production
- Increased hair breakage
- Increased hair loss
- Prolonged periods of shedding
- Pregnancy and lactation

How to apply

Powder: 1 measure (2.5 g) per 20 kg body weight / day

Tablets: 1 tablet per 20 kg body weight / day

Mini tablets: 1 tablet per 3 kg body weight / day

In case of severe hair loss and permanent dull hair, doubling the quantity is recommended.

Packaging

90 tablets

90 mini tablets

800 g tablets

300 g

Composition per tablet

Beta carotene	1 300 µg
Biotin	1 280 µg
Zinc	20 000 µg
L-Methionine	50 000 µg
Vitamin B ₁	10 µg
Vitamin B ₂	45.5 µg
Vitamin B ₆	20 µg
Vitamin B ₁₂	0.03 µg
Niacin	4 260 µg
Pantothenic acid	26.7 µg
Folic acid	13.3 µg
Choline chloride	2 200 µg
Iron	322 µg
Silicon	40 mg
Sulphur	13 mg
Lysine	20 mg
Methionine + Cystine	54 mg
Threonine	17 mg
Tryptophan	3.3 mg
Valine	15.2 mg
Tyrosine	3.2 mg

Brewer's yeast, diatomaceous earth (diatomite), antioxidants

Dolvit® Omega

HEALTHY SKIN AND SHINY COAT

- High level of unsaturated fatty acids omega-3 and omega-6 in the appropriate ratio
- Proper hydration, elasticity and nutrition of the skin
- Irritation relief, regeneration
- Boosting the immune system
- Shiny, dense, strong coat

Indications

- Support in dermatoses
- Supportive in atopic dermatitis
- Skin irritations
- Supportive in skin allergies
- Flaking of the epidermis
- Supportive in seborrhoea
- Dry, dull coat
- Excessive hair loss

How to apply

dogs and cats:

under 10 kg body weight – 15 drops / day

over 10 kg body weight – 15-30 drops / day

1 ml = 15 drops

Packaging

50 ml

Additives in 1 ml

Vitamin E (DL- α -Tocopherol)	4.5 mg
Tocopherol extracts from vegetable oils	1.8 mg
Gamma-linolenic acid (GLA)	146 mg
Linoleic acid (LA)	255 mg
Eicosapentaenoic acid (EPA)	46.3 mg
Docosahexaenoic acid (DHA)	30.8 mg
Alpha-linolenic acid (ALA)	3 mg

Borage oil, fish oil, linseed oil

Dolvit® Allergy

SUPPORT IN ALLERGY

- Composition of natural active substances, including:
 - quercetin, curcumin, polyphenols
 - alleviation of allergy symptoms of various origins
 - inhibition of histamine release
 - blocking allergic reactions

Indications

- Allergies of various origins
- Support in anti-allergic therapy

How to apply

Tablets

dogs under 20 kg body weight – 1 tablet / day

dogs over 20 kg body weight – 2 tablets / day

Mini tablets

dogs and cats under 5 kg body weight – 1 tablet / day

Packaging

90 tablets

60 mini tablets

Composition per tablet

Quercetin	75 mg
Nettle extract (<i>Urtica dioica</i>)	150 mg
Nigella extract (<i>Nigella sativa</i>)	150 mg
Rosehip extract (<i>Rosa canina</i>)	150 mg
Spirulina	60 mg
Rosemary extract (<i>Rosmarinus officinalis</i>)	10 mg
Vitamin C	100 mg
Vitamin B ₆	60 µg
Pantothenic acid	300 µg
Folic acid	20 µg

Sophora japonica extract (*Sophora japonica*), tumeric extract (*Curcuma longa*), spirulina, red marine algae (*Lithothamnion*), brewer's yeast, calcium carbonate from oyster shells, calcium lactate

Dolvit® Spirulina

Composition per tablet

Spirulina	965 mg
Crude protein	62%

VITALITY AND HEALTH

- Sea algae rich in high-quality protein, vitamins, minerals and other valuable nutrients
 - strengthening of the immune system
 - improvement of the digestive tract
 - supports detoxification of the body
 - reducing the rate of cancer cell growth
 - reducing the incidence of allergies
 - supporting the muscular system
 - strength and vitality

Indications

- Body weakness
- Reduced immunity
- Supportive in anti-allergy therapy
- Support in anti-cancer therapy
- Recovery from illness and surgery
- Supplementation of the daily diet

How to apply Tablets

small dogs – 1 tablet /day

medium dogs – 2 tablets /day

large dogs – 3 tablets /day

Mini tablets

dogs and cats – 1 tablet per 3 kg body weight / day

Packaging

90 tablets

90 mini tablets

Carcifin®

SUPPORT IN CANCER THERAPY

- Composition of vitamins and natural plant extracts
 - enhancement of psychomotor condition
- Rich source of natural polyphenolic compounds and amino acids, e.g. quercetin, curcumin, capsaicin
 - decreases the rate of cancer cell proliferation
- Natural immune factors – beta-1,3/1,6-glucans, mannan-oligosaccharides – stimulation of the immune system
- CLA, HMB – strength and vitality, inhibition of protein breakdown
- Strong antioxidant effects
 - neutralisation of free radicals
- Improved quality of life

Indications

- Supporting cancer therapy
- Body weakness
- Stress related to cancer
- Reduced immunity

How to apply Tablets

dogs and cats:

under 10 kg body weight – 1 tablet / day

10-20 kg body weight – 2 tablet / day

20-30 kg body weight – 3 tablet / day

over 30 kg body weight – 4 tablet / day

Mini tablets

dogs and cats:

under 3 kg body weight – 1 tablet / day

3-6 kg body weight – 2 tablet / day

7-10 kg body weight – 3 tablet / day

Packaging

90 tablets

60 mini tablets

Composition per tablet

Beta-1,3/1,6-glucan	80 mg
Quercetin	70 mg
CLA (conjugated linoleic acid)	50 mg
Vitamin A	2 000 IU
Vitamin D ₃	200 IU
Vitamin E	12 mg
Vitamin K	400 µg
Vitamin C	50 mg
L-Arginine	20 mg
Zinc	3 000 µg
Selenium	60 µg

Mannan-oligosaccharides (MOS), curcumin, capsaicin, thymol, carvacrol, flavonoids, polyphenols

β-Hydroxy β-methylbutyric acid (HMB), Japanese pearl plant (*Sophora japonica*), tumeric extract (*Curcuma longa*), nettle extract (*Urtica dioica*), dandelion extract (*Taraxacum officinale*), nigella sativa extract (*Nigella sativa*), rosehip extract (*Rosa canina*), green tea extract (*Camellia sinensis*), thyme extract (*Thymus vulgaris*), purple coneflower extract (*Echinacea purpurea*), paprika extract (*Capsicum annuum*)

ImmunoDol[®] Paste

IMMUNITY BOOST BETA-1,3/1,6-GLUCAN

- Beta-1,3/1,6-glucan isolated from the cell walls of the yeast *Saccharomyces cerevisiae*, highly purified
 - stimulates immune cells, increases macrophage activity, fights microorganisms
- Nigella extract – immunomodulating effect
- Rosehip extract – a natural antioxidant, rich source of vitamin C
- Borage oil and fish oil – rich in essential fatty acids and unsaturated fatty acids to strengthen immunity

Indications

- Reduced immunity
- Autumn and winter periods
- Supportive in infections
- Support in anti-cancer therapy
- Convalescence from diseases
- In stressful situation (e.g. stress, mating)

How to apply

cats and small dogs – 1-2 g / day
 medium dogs – 2-3 g / day
 large dogs – 4-5 g / day
 1 teaspoon = 5 g

Packaging

100 g

Composition per 1 kg

Beta-1,3/1,6-glucan	40 000 mg
Gamma-linolenic acid (GLA)	6 000 mg
Linoleic acid (LA)	17 300 mg
Eicosapentaenoic acid (EPA)	1 800 mg
Docosahexaenoic acid (DHA)	1 200 mg
Alpha-linolenic acid (ALA)	35 000 mg

Mannan-oligosaccharides (MOS), essential unsaturated fatty acids (EFAs), phospholipids Brewer's yeast, lecithin, borage oil, fish oil, nigella sativa extract (*Nigella sativa*), rosehip extract (*Rosa canina*)

ImmunoDol® ImmunoDol® Cat

IMMUNITY BOOST BETA-1,3/1,6-GLUCAN

- Beta-1,3/1,6-glucan isolated from the cell walls of the *Saccharomyces cerevisiae* yeast, highly purified
- Mannan-oligosaccharides – prebiotic effect
- Enhancement of immunity against infections
- Stimulation of immune cells
- Activation of macrophages that destroy microorganisms
- Support of antibiotic therapy
- Antioxidant effect – protection against free radicals
- Supports tissue regeneration

Indications

- Reduced immunity
- Autumn and winter periods
- Supportive in infections
- Support in anti-cancer therapy
- Convalescence after diseases
- In stressful situation (e.g. stress, mating)

Dolvit® Calm

REDUCES STRESS, CALMS DOWN

- Stress reduction
- Alleviating anxiety
- Calming and keeping balance

Indications

- Stressful situations i.e.: travel, exhibition, storm, fireworks, vet visit, meeting other animals
- Anxiety
- Organisms burdened by long-term treatment
- Change of environment
- Prolonged time spent at home without an owner
- Excessive agitation, a tendency to aggression, nervousness

How to apply Tablets

dogs and cats:

under 10 kg body weight – 1 tablet / day

10-20 kg body weight – 2 tablets / day

20-30 kg body weight – 3 tablets / day

over 30 kg body weight – 4 tablets / day

Mini tablets

1 tablet per 3 kg body weight / day

If necessary, the number of tablets can be increased two or three times.

Packaging

90 tablets

30 tablets

40 mini tablets

Composition per tablet

L-Tryptophan	100 mg
Valerian extract (Valeriana officinalis)	30 mg
Melissa extract (Melissa officinalis)	30 mg
Vitamin B ₆	150 µg

Green tea extract (Camellia sinensis), brewer's yeast

Dolvit[®] Cannabis Oil

CBD, OMEGA ACIDS, ANTIOXIDANTS

- Improving general health
 - restoration of body homeostasis
- Improving fitness
- Strengthening fitness and well-being
- Supporting the nervous system e.g. in epilepsy
- Alleviating stress, anxiety, aggression

Indications

- Weakness, decline in condition
- Reduction in immunity
- Animals in pain
- Stress, anxiety, aggression
- Lack of appetite, digestive problems
- Support in cancer therapy
- Support in the alleviation of epileptic symptoms
- Old age

How to apply

1-2 drops per 5 kg body weight / day

Packaging

10 ml

Additives in 1 ml

CBD oil 30%	220 mg
Tocopherol extracts from vegetable oils	1.8 mg

Phytonutrients (including CBDA, CBDV, CBG, CBC, CBN, CBGA), acids: omega-6, omega-3, omega-9

Borage oil (Borago officinalis L.), hemp extract (Cannabis sativa L.)

1 drop contains 2 mg of CBD

Cannabis Paste

CBD, BETA-GLUCANS, OMEGA ACIDS, ANTIOXIDANTS

- Strengthening immunity
- Restoration of body homeostasis
- Improving fitness and well-being
- Supporting the nervous system e.g. in epilepsy
- Alleviating stress, anxiety, aggression

Indications

- Weakness, decline in condition
- Reduction in immunity
- Animals in pain
- Stress, anxiety, aggression
- Lack of appetite, digestive problems
- Support in cancer therapy
- Support in the alleviation of epileptic symptoms
- Old age

How to apply

0.6 g (2 cm) of paste per 5 kg body weight 2 times / day

Packaging

100 g

Composition per 1 kg

CBD oil 10%	33 300 mg
Beta-1,3/1,6-glucan	40 000 mg
Vitamin D ₃	80 000 IU
Vitamin C	4 200 mg
Vitamin E	2 500 mg
Vitamin B ₆	1 700 mg

Phytonutrients (including CBDA, CBDV, CBG, CBC, CBN, CBGA), acids: omega-6, omega-3, omega-9

Borage oil, hemp extract (Cannabis sativa L.), brewer's yeast, lecithin

0.6 g paste contains 2 mg of CBD

Dolvit[®] Cannabis

CBD, BETA-GLUCANS, ANTIOXIDANTS

Vitamin C	5 mg
Vitamin E	3 mg
Vitamin B ₆	2 mg

Phytonutrients (e.g. CBDA, CBDV, CBG, CBC, CBN, CBGA)

Hemp extract (Cannabis sativa L.), brewer's yeast, rosemary extract (Rosmarinus officinalis)

1 tablet contains 4 mg CBD

ArthroFos®

PROPER JOINT FUNCTIONING

- Glucosamine – stimulation of glycosaminoglycan synthesis – beneficial effects on health, regeneration and joints mobility
- Chondroitin sulphate from shark cartilage – protects cartilage from damage, supports the regeneration of damaged joints
- Vitamin C – synthesis of collagen – the main component of joint cartilage
- Copper – proper functioning of articular cartilage in joints
- Manganese, magnesium – regeneration of articular cartilage

Indications

- Intensive growth, especially in large young dog breeds
- Old age and resulting degenerative changes
- Reluctance to exercise
- Convalescence from trauma and orthopaedic surgery
- Dogs exposed to high joint stress (sport, work)

How to apply

1 tablet per 20 kg body weight / day

Packaging

90 tablets
60 tablets
800 g tablets

Composition per tablet

Glucosamine	300 mg
Chondroitin sulphate	250 mg
Vitamin C	25 mg
Manganese	1.15 mg
Copper	1 mg
Magnesium	1 mg

ArthroFos[®] Cat

PROPER JOINT FUNCTIONING

- Glucosamine – stimulation of glycosaminoglycan synthesis – beneficial effects on health, regeneration and joints mobility
- Chondroitin sulphate from shark cartilage – protects articular cartilage from damage, supports the regeneration of damaged joints
- Vitamin C – synthesis of collagen – the main component of joint cartilage
- Manganese – regeneration of articular cartilage

Indications

- Intensive growth
- Old age and resulting degenerative changes
- Reluctance to move
- Convalescence from trauma and orthopaedic surgery

How to apply

1-2 tablets / day

Packaging

90 mini tablets

Composition per tablet

Glucosamine	150 mg
Chondroitin sulphate	150 mg
Vitamin C	10 mg
Manganese	1 mg

Arthro Paste

SUPPORTING JOINT METABOLISM

- Glucosamine and chondroitin – essential components of joint fluid and articular cartilage – proper nutrition of joints
- Type-II collagen – nourishment of the articular cartilage, protection against injury
- Hyaluronic acid – a component of synovial fluid – increases the elasticity of articular cartilage
- L-methionine – joint protection
- Essential fatty acids, Boswellia serrata and Curcuma longa – supports joint mobility
- Highly absorbable silicon – strengthening of bones and tendons
- Vitamin C, manganese – collagen synthesis, normal development of bones and joints
- Vitamin E, C, plant extracts – natural antioxidants – protection against free radicals

Indications

- Support in osteoarthritis
- Support in degenerative changes of the musculoskeletal system
- Difficulties with movement
- Intensive growth
- Convalescence after injury and orthopaedic surgery
- Increased activity

How to apply

cats and small dogs – 1-2 g / day
 medium dogs – 2-4 g / day
 large dogs – 4-5 g / day
 1 teaspoon = 5 g

Packaging

100 g

Composition per 5 g

Glucosamine	300 mg
Chondroitin sulphate	300 mg
Hydrolysed type-II collagen	200 mg
Hyaluronic acid	40 mg
Vitamin C	50 mg
Vitamin E	10 mg
Silicon	51 mg
Manganese	1.15 mg
L-Methionine	50 mg
Omega-6 acids	5 000 mg
Omega-3 acids	1 000 mg
Eicosapentaenoic acid (EPA)	30 mg
Docosahexaenoic acid (DHA)	20 mg
Methionine	52 mg
Boswellic acids	
Phospholipids	

Fish oil, lecithin, brewer's yeast, Indian frankincense extract (Boswellia serrata), tumeric extract (Curcuma longa), diatomaceous earth (diatomite), antioxidants

ArthroFos[®] Forte

PROPER JOINT FUNCTIONING

- Glucosamine and chondroitin sulphate – proper development, functioning and regeneration of joints
- Micronutrients from hydroxy chlorides – regeneration of articular cartilage, collagen synthesis
- Antioxidant complex – protection of the organism against impact of free radicals
- L-carnitine – correct weight – minimises stress on the joints
- Boswellic acids, curcumin, nettle extract – correct joint mobility

Indications

- Intensive growth, especially in young dogs of large breeds
- Old age and resulting degenerative changes
- Supportive in inflammatory conditions of bones and joints
- Reluctance to exercise
- Overweight
- Convalescence after injury and orthopaedic surgery
- Dogs exposed to high joint stress (sport, work)

How to apply

1 measure (4 g) per 10 kg body weight / day

Packaging

700 g

1 kg

Composition per 1 kg

Glucosamine	30 000 mg
Chondroitin sulphate	25 000 mg
L-Carnitine	6 250 mg
Vitamin D ₃	15 000 IU
Vitamin C	5 000 mg
Vitamin E	1 000 mg
Zinc	900 mg
Copper	200 mg
Manganese	200 mg
Iodine	5 mg
Selenium	3 mg
Boswellic acids	14 000 mg
Silicon	20 000 mg
Magnesium	1 000 mg

Brewer's yeast, magnesium oxide, Indian frankincense extract (*Boswellia serrata*), turmeric extract (*Curcuma longa*), nettle extract (*Urtica dioica*), diatomaceous earth (diatomite)

ArthroHA[®]

PROPER JOINT FUNCTIONING

- Hyaluronic acid (HA) – an essential component of joint fluid – improved penetration of nutrients into tissues, elasticity, resilience of tissues, resistance of joints to strain
- Glucosamine and chondroitin – strengthening of articular cartilage
- New Zealand mussel (*Perna canaliculus*) – high content of GAGs (glycosaminoglycans) and omega-3 fatty acids (EPA, DHA, ETA) – beneficial effects on collagen synthesis and joint articular cartilage metabolism
- MSM (methylsulfonylmethane) – collagen synthesis, joint reconstruction
- Shark cartilage – supports the proper joint functioning

Indications

- Supportive in bone and joint disorders
- Support of degenerative changes of the musculoskeletal system
- Difficulties with movement
- Intensive growth
- Convalescence after injuries and orthopaedic surgery
- Animals exposed to high joint stress (sport, work)

How to apply

Tablets

dogs: under 20 kg body weight – 1 tablet / day
over 20 kg body weight – 2 tablets / day

Mini tablets

dogs and cats under 5 kg body weight – 1 tablet / day

Packaging

90 tablets
60 tablets
40 mini tablets
800 g tablets

Composition per tablet

New Zealand mussel	200 mg
Shark cartilage	200 mg
MSM	150 mg
Hyaluronic acid	10 mg
Vitamin C	25 mg
Manganese	1.15 mg
Copper	1 mg
Magnesium	1 mg

Glucosamine, chondroitin sulphate

ArthroDol®

Composition per tablet

Harpagophytum procumbens	350 mg
MSM (methylsulfonylmethane)	400 mg

PROPER JOINT FUNCTIONING

- Devil's claw (*Harpagophytum procumbens*) – improves mobility of musculoskeletal system
- MSM – organic sulphur compound – joint reconstruction, improved regeneration of muscular, connective and cartilaginous tissue

Indications

- Dogs in pain
- Supportive in inflammatory conditions of bones and joints, rheumatism
- Convalescence after trauma and orthopaedic surgery

How to apply

Tablets

1 tablet per 20 kg body weight / day

Mini tablets

1 tablet under 5 kg body weight / day

Packaging

90 tablets

30 tablets

60 mini tablets

ArthroCollagen®

PROPER JOINT FUNCTIONING

- Type-II collagen – proper production of synovial fluid – elasticity and regeneration of tendons, increased bone density
- New Zealand mussel – source of valuable omega-3 fatty acids and glycosaminoglycans (GAGs) – nourishment and hydration of joints
- Chondroitin sulphate from shark cartilage – protects articular cartilage from damage, supports the regeneration of damaged joints
- Hyaluronic acid – a component of synovial fluid – increases the elasticity of articular cartilage
- Vitamin C – inhibition of free radicals

Indications

- Intensive growth of young dogs
- Support in joint dysfunction
- Joint stiffness
- Degenerative changes in the joints
- Convalescence after injury and orthopaedic surgery
- Reluctance to exercise

How to apply

dogs: under 20 kg body weight – 1 tablet / day
 20-40 kg body weight – 2 tablets / day
 over 40 kg body weight – 3 tablets / day

Packaging

90 tablets

Composition per tablet

Hydrolysed type-II collagen	200 mg
New Zealand mussel	70 mg
Chondroitin sulphate	60 mg
Hyaluronic acid	5 mg
Vitamin C	25 mg

ArthroMax[®]

PROPER JOINT FUNCTIONING

- Joint protection formula in syrup form
- Glucosamine and chondroitin – essential components of joint synovium and articular cartilage – proper nutrition of the joints
- Hyaluronic acid (HA) – an essential component of the synovium fluid – increases the penetration of nutrients into the tissues
- Devil's claw (*Harpagophytum procumbens*) – supports the mobility of the musculoskeletal system
- MSM – organic sulphur compound – joint reconstruction
- Vitamin C – collagen synthesis, antioxidant effect

Indications

- Support treatment of osteoarthritis
- Support in degenerative changes in the musculoskeletal system
- Animals in pain
- Difficulty in movement
- Intensive growth
- Recovery after trauma and orthopaedic surgery
- Animals exposed to high joint stress (sport, work)

How to apply

cats: 1-2.5 ml / day

dogs: under 20 kg body weight – 2.5 ml / day
 over 20 kg body weight – 5 ml / day
 over 50 kg body weight – 7.5 ml / day

Packaging

500 ml

250 ml

Composition per 5 ml

Glucosamine	600 mg
Chondroitin sulphate	300 mg
MSM (methylsulfonylmethane)	250 mg
Harpagophytum procumbens	150 mg
Hyaluronic acid	40 mg
Vitamin C	50 mg

Dolvit® Fit

CORRECT WEIGHT AND SHAPE

- CLA – regulation of metabolism of glucose and fatty acids in adpse tissue cells
- L-carnitine – conversion of long-chain fatty acids into energy
- Zinc – regulation of blood sugar levels
- Green tea, lecithin – reduces the absorption of fats from food and their accumulation in the body
- Reduction of body fat
- Reduction of cholesterol, triglycerides and blood sugar levels
- Increase in muscle mass
- Reducing the risk of overweight
- Improved fitness

Indications

- Overweight
- Too massive physique
- Weakened condition
- High blood cholesterol levels
- Support in diabetes

How to apply

dogs and cats:

under 10 kg body weight – 1-2 tablets / day

10-20 kg body weight – 2-3 tablets / day

20-30 kg body weight – 3-4 tablets / day

over 30 kg body weight – 4-5 tablets / day

Packaging

90 tablets

Composition per tablet

CLA (conjugated linoleic acid)	300 mg
L-Carnitine	100 mg
Zinc	2 000 µg

Mannan-oligosaccharides (MOS), essential fatty acids (EFAs), catechins, phospholipids, flavonoids, brewer's yeast, green tea extract (Camellia sinensis), lecithin

Dolvit[®] Sport

AGILITY, STRENGTH AND ENERGY

- Increased fitness and performance
- Proper functioning of the musculoskeletal system
- Excellent shape
- Development and regeneration of muscle tissue
- Improved efficiency of the cardiac muscle
- Reinforcement of the immune system

Indications

- Increased physical activity
– sport, working and show dogs
- Post-exercise regeneration

How to apply

dogs:

under 10 kg body weight – 1 tablet / day
 10-20 kg body weight – 2 tablets / day
 20-30 kg body weight – 3 tablets / day
 over 30 kg body weight – 4 tablets / day

Packaging

90 tablets

Composition per tablet

HMB (β-Hydroxy β-methylbutyric acid)	200 mg
L-Arginine	100 mg
L-Carnitine	60 mg
MSM (methylsulfonylmethane)	70 mg
Vitamin C	60 mg
Vitamin E	10.5 mg
Vitamin A	70 IU
Vitamin D ₃	13 IU
Vitamin B ₁	211 µg
Vitamin B ₂	230 µg
Vitamin B ₆	217 µg
Vitamin B ₁₂	2.8 µg
Biotin	0.8 µg
Niacin	200 µg

Glucosamine, phospholipids, Mannan-oligosaccharides (MOS), Lysine 16mg, Methionine+Cystine 6.2mg, Valine 16.5mg, Isoleucine 14mg, Glutamic acid 36.5mg, Leucine 20.2mg, Aspartic acid 17mg

Brewer's yeast, New Zealand mussel, spirulina, lecithin, calcium lactate, magnesium lactate

Dolvit[®] Carnitine

Composition per tablet

L-Carnitine 100 mg

Brewer's yeast

PROPER BODY SHAPE AND ENERGY

- Inhibition of adipose tissue formation
- Conversion of long-chain fatty acids into energy
- Supporting correct cardiac muscle function
- Supporting skeletal muscle function
- Supports nervous system function
- Antioxidant properties
- Enhanced body detoxification
- Increase in energy and vitality
- Improved performance

Indications

- Increased physical activity
- Overweight
- Old age
- Decrease in energy

How to apply

1 tablet per 10 kg body weight / day

Packaging

90 tablets

800 g tablets

Dolvit[®] HMB

Composition per tablet

HMB
(β -Hydroxy β -methylbutyric acid) 250 mg

Brewer's yeast

SHAPE, AGILITY, MUSCLES

- Development of muscle mass
- Protects the body from muscle protein loss
- Increased strength and performance
- Improved efficiency

Indications

- Increased physical activity – sport and working animals
- Post-exercise regeneration
- Convalescence after surgery and diseases
- Support for an organism weakened by prolonged stress
- Support in musculoskeletal disorders

How to apply

dogs and cats:

under 10 kg body weight – 1 tablet / day

10-20 kg body weight – 2 tablets / day

20-30 kg body weight – 3 tablets / day

over 30 kg body weight – 4 tablets / day

Apply the formula twice a day
(in the morning and in the afternoon).

Packaging

90 tablets

30 tablets

Energy Paste

ENERGY, SHAPE

- Achieving and maintaining good condition
- Increased energy and vitality
- Strengthening the body

Indications

- Convalescence after surgical procedures, illnesses
- Long-term stress
- Weakness, loss of energy
- Lack of appetite

How to apply

cats and small dogs – 3 g / day

medium dogs – 6 g / day

large dogs – 12 g / day

1 teaspoon = 6 g

If necessary, the amount can be doubled.

Packaging

100 g

Composition per 1 kg

Vitamin A	200 000 IU
Vitamin D ₃	10 000 IU
Vitamin E	2 500 mg
Vitamin C	10 000 mg
Biotin	60 000 µg
Taurine	5 000 mg
Iron	110 mg
Iodine	90 mg
Metabolic energy	24 MJ
Crude protein	6.5%
Crude fat	54%

Phospholipids, omega-3 and omega-6 acids, antioxidants

Soybean oil, coconut oil, whey powder, lecithin, fish oil

Dolvit® Isotonic

WATER-ELECTROLYTE BALANCE

- Stabilisation of the water-electrolyte balance
- Equalisation and maintenance of correct electrolyte levels in the blood
- Easily digestible energy

Indications

- Dehydration
- Support in digestive disorders i.e. diarrhoea, vomiting
- Convalescence
- Hot weather
- Travelling
- Prolonged physical activity
- Pregnancy, nursing and lactation

How to apply

Dissolve the contents of the pouch (25 g) in 1 litre of water. Make sure that the prepared solution remains accessible all the time.

Packaging

10 pouches of 25 g
250 g

Composition per 25 g

Vitamin C	30 mg
Zinc	15 mg
Potassium	452 mg
Sodium	435 mg
Chlorides	355 mg
Calcium	53 mg
Magnesium	20 mg

Glucose, maltodextrin, potassium carbonate, sodium bicarbonate, sodium chloride, calcium lactate, magnesium lactate

Probiotic Paste

Dolvit® Probiotic

PROBIOTICS AND PREBIOTICS

- Proper functioning of the digestive tract
- Proper absorption of nutrients
- Support of digestion
- Supporting proliferation of beneficial intestinal microflora
- Reduced growth of unfavourable bacteria in the digestive tract
- Protection of the digestive tract mucosa
- Correct stool consistency
- Reduced risk of intestinal disorders (diarrhoea, constipation, inflammations)
- Strengthening of the immune system

Indications

- Support in digestive disorders (e.g.: diarrhoea, constipation)
- Antibiotic therapy
- Deworming
- Change in diet
- Stressful situations
- Travel
- Young and growing animals
- Diarrhoea-prone animals
- Abnormal consistency of stool
- Flatulence

How to apply

Paste: 2-4 g twice a day

1 teaspoon = 6 g

Tablets: 1-2 tablets / day

Packaging

50 g paste

60 tablets

Composition per 1 kg of paste

Enterococcus faecium DSM probiotic
10663 NCIMB 10415 1.5×10^{12} CFU

Beta-1,3/1,6-glucan

Mannan-oligosaccharides (MOS)

Fructooligosaccharides (FOS)

Essential fatty acids

Brewer's yeast, soybean oil, lecithin, fish oil, inulin

Composition per tablet

Enterococcus faecium DSM probiotic
10663 NCIMB 10415 1.5×10^9 CFU

Beta-1,3/1,6-glucan

Mannan-oligosaccharides (MOS)

Brewer's yeast

STOPER Paste

Dolvit® STOPER

GASTROINTESTINAL DISORDERS

- Alleviating symptoms of diarrhoea
- Stabilisation of the digestive tract
- Regeneration of the intestinal mucosa
- Improvement of faecal consistency
- Inactivation of toxins and other harmful substances

Indications

- Acute gastrointestinal disorders
- Diarrhoea
- Supportive treatment in case of food poisoning
- Convalescence after digestive disorders

How to apply

Paste

cats and small dogs – 3 g / day

medium dogs – 6 g / day

large dogs – 9-12 g / day

1 teaspoon = 6 g

Tablets

cats – 1 tablet / day

dogs: under 10 kg body weight – 1 tablet / day

10-20 kg body weight – 2 tablets / day

20-30 kg body weight – 3 tablets / day

over 30 kg body weight – 4 tablets / day

If needed, the dose can be doubled.

Packaging

50 g paste

30 tablets

Composition per 1 kg of paste

Smectite	100 g
----------	-------

Chestnut tannin extract (Castanea sativa Mill)	
---	--

Beta-1,3/1,6-glucan	
---------------------	--

Mannan-oligosaccharides (MOS)	
-------------------------------	--

Brewer's yeast, pectin, potassium carbonate

Dolvit® Gland

PROPER FUNCTIONING OF THE ANAL GLANDS

- Correct formation of stool – proper defecation
- Supporting natural emptying of the peri-anal sinuses
- Prebiotics, beta-1,3/1,6-glucan, mannan-oligosaccharides
- Support of the digestive tract, multiplication of the desirable intestinal bacteria
- Smectite – binding and removal of toxins and other harmful substances
- Plant extracts – natural source of antioxidants, polyphenols, flavonoids – strengthening the organism, inhibition of free radical formation
- Pectin, linseed – protection of the mucous membrane of the digestive tract, support of intestinal peristalsis
- Improved well-being

Indications

- Problems with emptying of the anal glands
- Susceptibility to infections of the anal glands
- Scooting a bottom across the floor
- Rectum swelling
- Supportive in digestive disorders (diarrhoea, constipation)

How to apply

Tablets

dogs: under 10 kg body weight – 1 tablet / day
 10-20 kg body weight – 2 tablets / day
 20-30 kg body weight – 3 tablets / day
 over 30 kg body weight – 4 tablets / day

Mini tablets

Cats and small dogs: 1-3 tablets / day

Packaging

60 tablets
 60 mini tablets

Composition per tablet

Smectite	150 mg
Vitamin C	10 mg
Beta-1,3/1,6-glucan	
Mannan-oligosaccharides (MOS)	
Fructooligosaccharides (FOS)	

Curcumin, glycosides, flavonoids

Pumpkin seed extract (*Cucurbita pepo*), sage extract (*Salvia officinalis*), tumeric extract (*Curcuma longa*), dandelion extract (*Taraxacum officinale*), rosehip extract (*Rosa Canina*), rosemary extract (*Rosmarinus officinalis*), chestnut tannin extract (*Castanea sativa* Mill), pectin, linseed, brewer's yeast, inulin

Dolvit® Cayenne

STOP STOOL EATING

- Supplementation of deficiencies that can lead to stool eating – vitamins, minerals, digestive enzymes, probiotics, prebiotics, substances of plant origin
- Effective in discouraging dogs from eating stool
- Regulation of the digestive tract
- Proper absorption of nutrients

Indications

- Coprophagia
- Supportive in digestive disorders
- Disruption of the intestinal microflora
- Nutrient malabsorption

How to apply

Tablets

dogs: under 10 kg body weight – 1 tablet / day
 10-20 kg body weight – 2 tablets / day
 20-30 kg body weight – 3 tablets / day
 over 30 kg body weight – 4 tablets / day

Mini tablets

dogs: under 3 kg body weight – 1 tablet / day
 3-6 kg body weight – 2 tablets / day
 7-10 kg body weight – 3 tablets / day

Packaging

90 tablets
 60 mini tablets

Composition per tablet

Enterococcus faecium DSM probiotic 10663 NCIM 10415 6*10 ⁸ CFU	
Amylase	680 Ph.Eur.u.
Lipase	470 Ph.Eur.u.
Protease	48 Ph.Eur.u.
Vitamin B ₁	0,4 mg
Beta-1,3/1,6-glucan	
Mannan-oligosaccharides (MOS)	

Brewer's yeast, dicalcium phosphate, extract of Mojave yucca extract (Yucca schidigera), pepper extract (Capsicum annuum), parsley extract (Petroselinum crispum), linseed

Dolvit® ProDental powder

Composition per 1 kg

Brown seaweed (*Ascophyllum nodosum*)

Purple coneflower extract (*Echinacea purpurea*)

Zinc chelate 20 000 mg

DENTAL CARE

- Reduction of dental problems
- Counteracting unpleasant mouth odour
- Maintenance of good oral hygiene
- Prevention of plaque and tartar formation

Indications

- Tartar
- Plaque overgrowth
- Unpleasant mouth odour
- Supports gum disorders
- Regular oral hygiene

How to apply

dogs and cats under 15 kg body weight – 0.5-1 measure / day

dogs: 15-30 kg body weight – 1.5-2 measure / day

over 30 kg body weight – 2-3 measure / day

1 measure = 0.5 g

Administer with a meal.

Packaging

70 g

30 g

DeoDol®

STOP BAD ODORS

- Chlorophyll – inhibits the formation of unpleasant odours produced by dogs
- Zinc amino acid chelate – ability to combine with sulphur-containing compounds (e.g. hydrogen sulphide), responsible for unpleasant odours
- Mojave yucca extract (*Yucca schidigera*) – regulation of feed passage, reduction of stool odour
- Brewer's yeast – valuable source of B vitamins – regulation of digestive processes

Indications

- Odours: muzzle odour, body odour, stool odour, fecal odour
- Support in digestive disorders

How to apply Tablets

small dogs – 1 tablet / day

medium dogs – 2-3 tablets / day

large dogs – 4-6 tablets / day

Mini tablets

small dogs – 1-3 tablets / day

During heat, the number of tablets may be doubled.

Packaging

90 tablets

60 mini tablets

Composition per tablet

Chlorophyll	20 mg
Zinc chelate	10 mg
Mojave yucca extract (<i>Yucca schidigera</i>)	75 mg
Brewer's yeast	

HepaDol®

LIVER PROTECTION AND REGENERATION

- Ornithine – an essential amino acid for the synthesis of urea in the ornithine cycle – regeneration of the liver
- Taurine – protects the liver from fibrosis
- L-methionine and L-carnitine – choleric effect, prevention of deposits in the bile ducts, detoxification
- Milk thistle (Silybum marianum) – protection of liver cells against toxic agents, cholagogue effect, antioxidant effect
- Phospholipids – digestion of fats, increased absorption of fat-soluble vitamins
- Lecithin – liver detoxification and regeneration, involved in fat digestion
- B vitamins – liver processes support

Indications

- Support in liver disorders
- Supportive in disorders of the liver and bile ducts
- Support in digestive disorders
- Support of the organism during therapies that burden the liver
- Support in case of poisoning
- Daily support for the liver

How to apply

Tablets

cats: 1 tablet / day

dogs: under 15 kg body weight – 1 tablet / day
 15-30 kg body weight – 2 tablets / day
 over 30 kg body weight – 3 tablets / day

Mini tablets

1 tablet per 5 kg body weight / day

Administer with a meal.

Packaging

60 tablets

60 mini tablets

Composition per tablet

Ornithine (as L-ornithine L-aspartate)	150 mg
Taurine	100 mg
L-Methionine	50 mg
L-Carnitine	5 mg
Phospholipids	70 mg
Milk thistle extract (Silybum marianum)	25 mg
Silymarin	20 mg
Choline chloride	1 mg

Brewer's yeast, lecithin

HepaDol[®] Max

LIVER PROTECTION AND REGENERATION

- Composition of ingredients, i.e.: ornithine, SAME, phospholipids, silymarin, which influence regenerative, supportive and relaxing liver's properties
- Cynarine – prevents the formation of gallstones, cleanses the liver from toxins
- Curcumin, thymoquinone – natural, powerful antioxidants
- Supporting the alleviation of inflammation, proper digestion, liver regeneration, cholagogue properties
- Phytosterols – correct blood cholesterol levels, protection of the liver against steatosis

Indications

- Support in liver functioning
- Support in digestive diseases
- Support in liver disorders
- Support of the organism during therapies that burden the liver
- Support in case of intoxication
- Daily liver protection

Composition per 1 kg

L-Methionine	252 g
--------------	-------

Soybean oil, brewer's yeast, cranberry extract (Vaccinium macrocarpon), lecithin, fish oil

URINE ACIDITY REGULATOR

- Urinary acidification
- Cranberry extract – protection of the urinary tract against harmful micro-organisms
- Supports the functioning of the urinary tract

Indications

- Recurrent problems of the lower urinary tract
- Supportive in the formation of struvite stones (ammonium-magnesium phosphate stones)
- Supportive in lower urinary tract infections

How to apply

cats and small dogs – 1-2 g / day

medium dogs – 4 g per / day

large dogs – 6 g per / day

UrinoDol®

NATURAL SUPPORT OF URINARY TRACT

- Cranberry extract – elimination of harmful microorganisms from the urinary tract
- Parsley extract – diuretic effect – removal of toxins from the urinary tract
- Hyaluronic acid – formation of protective layer of bladder mucosa
- Glucosamine – sealing the bladder wall

Indications

- Support in urinary tract disorders
- Support in infections of the lower urinary tract

How to apply

Tablets

dogs – 1 tablet per 20 kg of body weight / day

Mini tablets

cats and small dogs – 1-2 tablets / day

Packaging

60 tablets

60 mini tablets

Composition per tablet

Cranberry extract (Vaccinium macrocarpon)	250 mg
Parsley extract (Petroselinum crispum)	100 mg
Glucosamine	100 mg
Hyaluronic acid	5 mg

ChitoFos[®] Paste

ChitoFos[®]

SUPPORT OF RENAL FUNCTION

- Chitosan – a building block of marine crustaceans – removal of harmful uremic toxins from the body
- Calcium carbonate – binding and limiting excess phosphorus in the body
- Vitamin D₃ – to supplement deficiencies that may occur with renal insufficiency

Indications

- Support in kidney disorders
- Supportive in chronic renal insufficiency
- Reduction of body phosphorus supply

How to apply

Paste

6 g per 20 kg body weight / day

1 teaspoon = 6 g

The amount can be divided into 2 portions by administering it twice a day

Powder

1 measure (1 g) per 5 kg body weight 2 times a day

Formula should be mixed with wet feed.

Tablets

1 tablet per 10 kg body weight 2 times a day

Administer with a meal.

Packaging

50 g paste

60 tablets

150 g

60 g

Composition per 1 kg of paste

Chitosan	106 mg
Vitamin D ₃	33 500 IU

Soybean oil, lecithin, calcium carbonate, brewer's yeast

Composition per 1 kg of powder

Chitosan	90 g
Vitamin D ₃	25 000 IU

Lactose, calcium carbonate

Composition per tablet

Chitosan	180 mg
Vitamin D ₃	50 IU

Brewer's yeast, calcium carbonate

LespeDol®

Composition per tablet

Lespedeza extract (Lespedeza capitata)	180 mg
Orthosiphon extract (Orthosiphon aristatus)	90 mg

DIURETIC EFFECT

- Lespedeza extract – strong diuretic effect, regulation of the blood urea concentration, flushes out toxins
- Orthosiphon extract – support of diuresis and alleviated inflammation of the urinary tract, neutralises free radicals

Indications

- Support in kidney disorders
- Difficulties with urinating
- Supportive in uremia
- Supportive in case of kidney stones and bacterial urinary tract infections

How to apply

Tablets

dogs – 1 tablet per 10 kg body weight / day

Mini tablets

dogs and cats – 1 tablet per 3 kg body weight / day

Packaging

40 tablets

60 mini tablets

ProstaDol®

SUPPORT OF PROSTATE FUNCTION

- Beta-sitosterols – support of epithelial cells regeneration of the prostate gland, proper functioning of the prostate
- Extracts of cranberry, nettle and pumpkin seed – beneficial effects on the functioning of the urinary tract
- Vitamin E, zinc, manganese, selenium – protection of prostate and genitourinary cells from free radicals and changes caused by aging processes

Indications

- Prostate hypertrophy
- Supportive in urinary disorders
- Supportive in prostatitis
- Support in prostate cancer therapy
- Old age

How to apply

1 tablet per 20 kg body weight / day

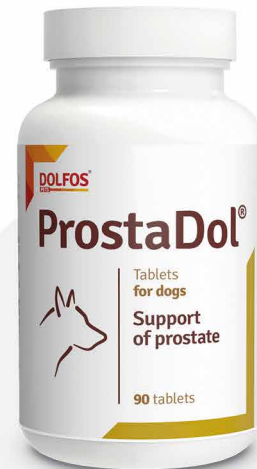

Packaging

90 tablets

Composition per tablet

Cranberry extract (Vaccinium macrocarpon)	150 mg
Beta – plant sitosterols	10 mg
Vitamin E	2 500 µg
Manganese	2 000 µg
Zinc	8 000 µg
Selenium	45 mg

Phytosterols, omega-6 acids, L-glutamine
Soybean extract, pumpkin seed extract (Cucurbita pepo), nettle extract (Urtica dioica)

HemoDol®

ANAEMIA

- Highly bioavailable iron – production of red blood cells and haemoglobin, proper oxygen transport in the body
- B vitamins – support of haematopoietic processes
- Vitamin C – increase in iron bioavailability
- Copper – proper iron transport in the body

Indications

- Anaemia
- Support in babesiosis and haemoplasmosis

How to apply

Tablets

dogs – 1 tablet per 10 kg body weight twice a day

Mini tablets

dogs and cats – 1 tablet per 3 kg body weight twice a day

It is recommended to consult a veterinarian before administration.

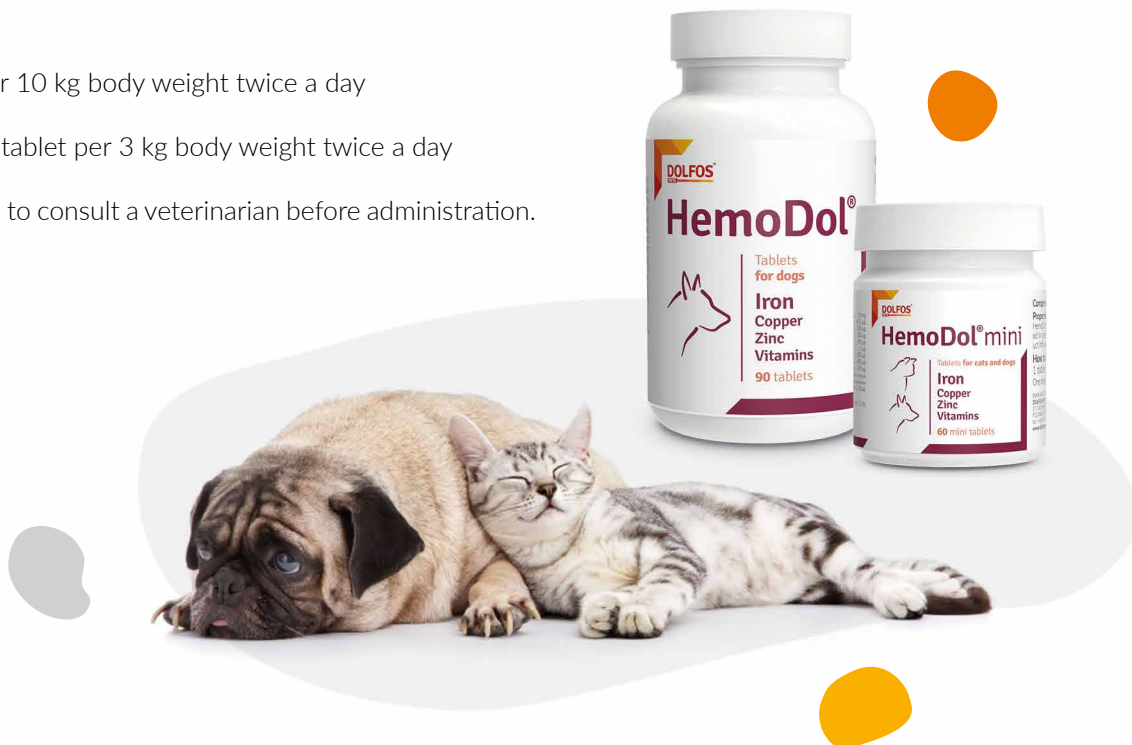

Packaging

90 tablets

60 mini tablets

Composition per tablet

Iron	10 000 µg
of which from chelate	3 000 µg
Copper	1 000 µg
Zinc	10 000 µg
Vitamin C	30 mg
Vitamin K	250 µg
Vitamin B ₁	1 500 µg
Vitamin B ₂	1 500 µg
Vitamin B ₆	1 200 µg
Vitamin B ₁₂	15 µg
Niacin	3 000 µg
Pantothenic acid	1 200 µg
Folic acid	5 000 µg

CardioDol®

CARDIAC SUPPORT

- Heart-protective formula in the form of a syrup
- L-carnitine – an essential substance for the production of energy, needed for proper heart function, antioxidant properties
- L-arginine – seals blood vessels, prevents platelet aggregation, regulates blood pressure
- Taurine – correct heart rhythm, strengthening of cardiac muscle contractions
- Selenium – protection of the heart against oxidative stress

Indications

- Supportive in cardiovascular disorders
- Supportive in the treatment of heart diseases

How to apply

dogs and cats:

under 5 kg body weight – 2.5 ml twice a day

5-15 kg body weight – 5 ml twice a day

15-30 kg body weight – 10 ml twice a day

over 30 kg body weight – 15 ml twice a day

Packaging

250 ml

Composition per 5 ml

L-Carnitine	500 mg
L-Arginine	100 mg
Taurine	100 mg
Beta carotene	10 µg
Selenium	30 µg

Magnesium lactate, potassium chloride

LintOff Paste®

ANTI-HAIRBALL PASTE

- Reduced formation of hairballs in the digestive tract
- Proper passage and excretion of hair from the digestive tract

Indications

- Prevention of hairball formation in the digestive tract
- Accumulation of hairballs in the digestive tract
- Constipation, bowel movement problems
- Cats with long, dense coat

How to apply

in the presence of hairballs – 4-6 cm of paste / day

reduction of hairball formation – 4-6 cm of paste

2-3 times / week

1 cm = 0.5 g

Packaging

100 g

Composition per 1 kg

Malt, sugar cane molasses, soybean oil, dextrose monohydrate, fish oil

Dolvet Out Spray

Composition

Natural essential oils: lavender, lemongrass, clove, mint, citronella, cedar, eucalyptus, geranium, vetiver, apple cider vinegar, glycerine

STOP INSECTS AND TICKS

- Protection against dangerous and troublesome ticks, mosquitoes, midges, flies, fleas and other insects
- 100% natural
- Safe for dogs and people
- Non-toxic
- Free from preservatives, GMOs and alcohol
- Conditioning properties
- Pleasant smell

How to apply

Spray onto the surface of the coat and skin, avoiding contact with the eyes and nose. Apply as often as needed, especially before each walk, and after contact with water.

Packaging

150 ml
